Governor Sheldon has appointed the Very Rev. Joseph Ruesing, of West Point, Neb., to represent Nebraska at the National Conference of Charities and Corrections in Minneapolis. For many years Father Ruesing has been president of the State Board of Charities.

At the election held recently in Rome by the Ursuline Order, Mother Mary Joseph, formerly superior of the Ursuline Convent at Galveston, and more recently provincial of the southern province, has been made assistant general of the Ursuline Institute in Rome.

Rev. Francis O'Boyle, S. J., has been appointed rector of St. Louis University, succeeding the Rev. William Banks Rogers. Father O'Boyle, who is only 30 years of age, is an alumnus of Detroit College, and was ordained in 1904. For the past year he has been vice-president of the St. Louis University.

The St. Louis Franciscan Province is sending two of its young priests to aid the Franciscans who are working for the conversion of China, under the Rt. Rev. Bishop Goette, O. F. M. Next month Rev. Agriellus Baser, O. F. M., of Memphis, will start for San Francisco, where he will be joined by Rev. Juniper Duolin, O. F. M., and together they will sail for the Orient.

The joint city attorneys of Montreal have given a decision to the effect that the city council has the right to appoint a censor of plays. Such an official will be immediately appointed, in response to a request from Archbishop Bruchesi, the head of the archdiocese of Montreal.

Ontario Beach Park.

Another great bill of free attractions has been provided for the patrons of Greater Ontario Beach Park for the week of July 15th. It embraces a list of features, the securing of any one of which would be a source of self congratulation on the part of any amusement manager. In fact, it appears to be the best programme of free outdoor numbers offered by the management of the resort thus far during the season.

One of the country's best musical organizations has been engaged to follow Don Philippini's company of musicians and vocalists, and this acquisition, together with other features which include a feat of daring in the sensational direction.

Those in charge of the park's free attractions announce the coming of Oscar V. Babcock, who not only loops the loop on a bicycle, as is accomplished by others of lesser note, but the peculiar construction of the apparatus used by him has caused it to be designated "The Death Trap Loop," and the act calls for combining with this feature a sensational stunt called "Flying the Flume." This consists of a precipitous flight, while mounted on a wheel, down an incline from a height of 75 feet before the reckless rider strikes the "loop." After leaving the so-called "Death Trap" wheel and wheelman rise to another but shorter incline from which the momentum attained shoots them into space to a platform built about 30 feet distant from the main structure and upon which the cycle with the rider still mounted rights "right side up."

Fay's Providence Band does not come to the grounds unheralded. On the other hand, the decision of the management to book this company was influenced by the triumphs which Fay and his musicians have achieved in the largest parks of the country. The organization is described as an exceptionally meritorious one, and while Fay's methods include no mannerisms or eccentricities such as obtain with many leaders, yet the substantial harmony which his directing elicits is such as finds a hearty response in true music lovers.

Another newcomer on the bill is Mlle. De Lora, known as "the physical culture girl," who is down to give an exposition of what a systematic course of training will accomplish in body and muscle building.

This programme should prove a very inviting one to next week's park patrons.

"Fighting the Flames," "Bos-tock's Wild Animals" and the manifold devices and attractions of the park have struck a wave of prosperity since the Fourth of July, which will no doubt continue during the coming week.

Photographic Shutters and Lenses.

In no branch of manufacture has the improvement been more marked during the last five years than in the production of shutters for photographic purposes. This is true, not only of the mechanical part, but also of the general appearance and price as a complete camera can now be purchased for about the amount that a few years ago was asked for the shutter and lens.

The factory is equipped with every modern appliance and convenient.

The amount realized will total over \$1,000 and with provisions and supplies left for the use of the Asylum amounting to over \$100. News From Washington

Acts of Last Congress.

Effective July 1.

The last session of Congress enacted some legislation that becomes effective July 1. The Secretary of the Interior was directed to investigate the advisability of abandoning the various pension agencies throughout the country and providing for the payment of all pensions from Washington.

Nearly one billion dollars becomes available for government expenditures. The Navy Department, in particular, was generously treated and will have \$23,000,000 more to spend than last year.

It was in connection with the Postoffice Department, however, that the greatest amount of new legislation was enacted. In the matter of readjustment of salaries and positions there was a broad range of legislation. Here are the most important things provided for:

Clerks in offices of the first and second class will be divided into six grades, as will the clerks in city delivery service. In the first grade the salary will be \$600; in the second grade, \$500; in the third grade, \$400; in the fourth grade, \$300; in the fifth grade, \$200; in the sixth grade, \$100. On July 1 clerks and carriers at first class offices are provided successively to the fifth grade, and those in the second class offices to the fourth grade. The Postoffice Department is now going over the evidence submitted by postmasters, which will govern all promotions. Every promotion is based on efficiency and faithfulness. Any clerk will be eligible to the service of a carrier, and vice versa.

Every city carrier, who on June 30 is regularly employed at a salary of \$600, will be promoted to the fourth grade at \$1,000, provided there is submitted to the department evidence of efficiency and faithfulness.

Substitutes may be employed for clerks and carriers at the rate of 30 cents an hour, and a substitute becomes eligible for appointment to the first grade.

Employees in the railway mail service will receive an increase of \$100, and will be classified.

Rural letter carriers who cover what is known a full route will receive \$300 a year, instead of \$200 as heretofore.

Compensation of railroads for carrying the mails is to be readjusted, and the opinion is entertained that it will probably be cut down materially. Postmasters throughout the country will keep a record of the weight of all classes of mail for a period of six months.

Promotions under the new legislation will be made upon recommendation of the postmasters, so far as postoffice employees are concerned, and of division superintendents in dealing with employees of the railway mail service.

Ten cents' worth of ordinary postage stamps may be used for special delivery service by writing the words "Special Delivery" under the extra stamps.

The following were ordained priests at the Catholic University last week by Bishop Curtis: Reys, Arthur Becker, August Bellwood, Elias Bergewin, Emile Bertrand, Thomas Canning, Michael Kreyes and Peter Forrester; all are from the Marist College.

Cook Opera House.

Rose Coghlan will be the chief entertainer in next week's bill of vaudeville at the Cook Opera House. Miss Coghlan is one of the best known actresses on the American stage to-day, and has appeared in countless big theatrical productions. As a vaudeville offering, Miss Coghlan is presenting a one-act sketch, entitled "The Ace of Trumps." Another important attraction will be Sie Hassan Ben Ali's whirlwind Arabs. This is a bunch of dusky Oriental gymnasts, trained in pyramid building and tumbling. Cooper and Robinson, famous colored comedians, will have the offering that has placed them in the very front rank of contemporary vaudevillers. The Majestic Musical Four, one of the most entertaining and most meritorious comedy male quartettes on the vaudeville stage, will entertain for twenty minutes. Julia Redmond and Company will present a one-act farce, entitled "Too Much Married." The Rooney Sisters will have a comedy acrobatic dancing turn. Novelty juggling, interspersed with French clowning, is on the books for the Pelots. The kinetograph will show a new series of moving pictures.

Catholic Summer School

First and Second Weeks at Cliff Haven.

(Special Correspondence to Catholic Journal.)

The sixteenth session of the Catholic Summer School opened auspiciously on Monday evening July 1st, with the first lecture of the session delivered by the Rev. Father Gleeson. A purse of several hundred dollars was presented to Father Gleeson. A magnificent basket of flowers was contributed by the Sunday School and a handsome gold chalice by Bishop McQuaid of Rochester.

There was a larger attendance on the grounds during the first two weeks of the session than in previous years, which augurs well for the summer school this season.

The lectures of the first week were the two given by Dr. Smith on the First, Second and Third Republics, which bore on the present condition of the church in France, and two song recitals by Frank T. Molony of New York. The morning lectures started with the first of the interesting series of five on "Problems of Astronomy," by Prof. Denis O'Sullivan of Philadelphia. The evenings of the second week were taken up with a series of song recitals by Elizabeth Pattee-Walovan, vice-president; Chas. Wood, secretary; William Walsh, treasurer. Committees were appointed for soliciting eatables among the members, for ball games and other sports, for musical and after dinner speeches.

Chief among the members was Dr. Alfred C. Lane, state geologist of Michigan, vice-president of the Association, who delivered will be long remembered for his thoughtful and earnest eloquence.

A powerful sermon on the Gospel of the day was preached by the president, Dr. Smith.

On Wednesday there was the usual weekly hop at the Champlain Club, and on Saturday evening the farce, "Who Is Who," by Williams will be presented by Mr. James Brady with an excellent amateur company. Duborg's comedy, "Twenty Minutes Under An Umbrella," will also be presented. Several ballads will be sung by James Brady.

The camp this year is in charge of Louis L. McIntyre, a well-known Canadian athlete and physical director, and Dr. Alexander Schmitt of New York. P. J. Fineran, physical director at the Naval Academy of Annapolis, is again in charge of the athletics for the entire school.

It will be staged with all the expensive scenery and scenic effects that made its original production so notable and played by a large cast of principals.
