### The forty-sixth school year at the Rochester Business Institute

will open Tuesday, September 8, at which time there  
will be a large registration of young men and women  
from Rochester and vicinity.

The school year just closed has been the most  
successful in the history of the institution. More high  
school, normal school and college graduates and under-  
graduates have been in attendance during the past year  
than in any previous year in the history of the school.  
Young men and women wishing to qualify for business  
or for commercial teaching under the instruction of an  
exceptionally strong faculty should make their plans to  
attend the Rochester Business Institute.

There is a very active demand for graduates from  
all the departments of this school to take good positions.

Our new illustrated catalogue gives full particulars.
