Acme Ale

Located on Lake Ave, one of the most beautiful Boulevards in Rochester, this building harmonizes perfectly with the elegant residences adjacent to it. It is constructed externally of Roman style pressed brick, light colored sand stone arches and water tables, mahogany doors and wire mesh glasses of different colors, all together making a very handsome appearance.

The interior is constructed with a view to obtaining hygienic conditions of the highest degree. Vitrified brick and fire proofed concrete aiding greatly toward this end.

The machinery, too being automatic in operation, is a reliable assurance that the products of this plant will reach its patrons in the most perfect condition obtainable.

A call on either phone 271 will receive prompt attention.
