HON. F. M. JONES, Republican Candidate for County Treasurer
 Mr. Jones was elected Supervisor in 1885 and was four times re-
 elected to that office serving five consecutive terms. In the fall of
 1890, he was nominated and elected Assemblyman from the first
 district of Monroe County, which office he held three terms, being
 re-elected in 1891 and again in 1892. Mr. Jones is a man of fine per-
 sonal qualities and great business ability. The secret of Mr. Jones'
 business success and political strength is an open book to those who
 have had the pleasure of meeting him. His uniform courtesy and
 fairness toward all have established for him many personal friends
 among men whose political beliefs differ from his own.

THE BABES OF THE JUNGLE

The above reproduction from a photograph of Joe and his two companions, the latest arrivals not yet named. The christening to take place at some future date at their residence, 111 Main St. East. This is the first instance that three chimpanzees have been exhibited at the same time in this country and they are certainly royal entertainers. Their human-like actions stamp them at a first glance as the greatest wonder from the Jungle that this country has ever seen. They are not alone, as there are over 300 living specimens of Birds, Animals and Monstrous Reptiles. The feeding of the big snakes takes place every evening at 8:30. The admission remains the same at 111 Main Street East. Children five cents.

Course of Reading

Include a daily reading of your Gas Meter Index. It will not take more than two minutes of your time each day, and you will be doubly repaid with the assurance that you are getting value received for your money.

*Dark, short and stormy days cost more for artificial light than bright, sunny days.
 You are apt to forget these things.*

A systematic reading of the meter index will keep you posted as to just what these days cost. Otherwise a month later when you come to pay your bill you will have forgotten them.
