SOUTH AMERICAN INVIGORANT

How Coca is Cultivated—Used as

Preventive of Sleep and Fatigue.

Coca is the South American invigorant. The shrub from which the coca leaves are obtained grows under favorable conditions to a height of about four meters. It is cultivated in Peru and Bolivia.

At the time the crop is gathered the seeds are sown in beds, when they germinate and grow, and in two months the growing plants reach a height of about a foot. The leaves, grown in the proper sunlight and shade, are yellowish, small and thick.

This is the kind of leaf that is preferred for chewing by persons using the leaf as a stimulant, fortifier and preventive of sleep and fatigue in the performance of arduous work inasmuch as they prevent rheumatism, from which miners suffer when working in mines that contain much water. Indians who masticate the leaves of this plant can work twenty-four hours without eating or sleeping.

Coca leaves are used by the natives when engaged in long and fatiguing journeys and by soldiers when subject to hardships and privations. They may be used with all kinds of food and are said to cure dyspepsia, either taken as an infusion in the shape of tea or by masticating the leaves. The height of the plant when perfect is eighty years.

Ran By the Tide of the Elbe. A 14,000-horse power plant operated by tidal energy is to be established on the south bank of the Elbe near Cuxhaven. This is by far the most ambitious project of this character which has ever been contemplated. Electrical energy is to be delivered to the town named for various commercial purposes, but the greater part of the product of this great power plant is to be made use of by factories which are established in the vicinity. Hamburg capital is mostly interested in the scheme.

Weekly Holiday Enforced. In New Zealand everybody is bound by law to take a weekly half-holiday, and there must be no shirking the obligation. The Grand hotel, Auckland, was recently crowded with guests, and several waiters, in lieu of obeying the law and taking their prescribed weekly half-holiday, remained at work on the premises on extra pay. But the authorities came to hear of it and, the proprietor of the hotel, had to appear in court where he was convicted and punished.

Japanese and Their Prisoners. The Japanese have a rather peculiar way of treating prisoners who have not been convicted. The regulation prison dress is a kind of strawberry-red-colored kimono, but many wear light blue, as a sign that although under suspicion, they have not yet been found guilty. When prisoners in this class have occasion to pass through the public streets curious extinguisher-like baskets are placed upon their heads.

Emeralds. At the present day most of the emeralds that come into the market are obtained from the famous mines of Muso, in the Colombian province of Boyaca. These workings are situated on the eastern slope of the Andes, about 70 miles to the northwest of the town of Santa Fe de Bogota. There is another mine, called Lasquet, two days' journey by muleback from Muso.

Worries of Modern Life. Nowadays we must not drink spirits nor eat meat, we must not smoke, the air of cities is poisonous, the air of country too strong, light ruins our eyes and the noise racks our nerves, shaking hands is a means of collecting microbes and kissing is pure suicide. Life is in deed growing dull and difficult.—Madrid Diario

The Thought Foremost in the Minds of All

Prospective Piano Purchasers

As the Holiday Season Approaches is, What Kind of a

PIANO IS BEST TO BUY

As a lifetime purchase, without making a mistake. To make the selection easier we herewith append a partial list of our large line of pianos, with a few of their special points and superior qualities added.

Mason & Hamlin "The Stradivarius of pianos." Is one of the oldest and without doubt the finest piano on the market to day. Such musical celebrities as Walter Damrosch, Harold Bauer, Katherine Goddson, Arthur Nikisch, etc., have given it their heartiest indorsement.	\$600	Sohmer "Sold for over thirty years in Rochester." Established 1872. A house of national reputation and rank. It is one of the best sellers among the absolutely standard pianos, and the name Sohmer stands for individuality of tone and superior workmanship.	\$580
Hardmann "The only piano that improves with use." A piano that is especially good for accompanying and is indorsed by Caruso, Campanini, Tetrazini and others.	\$525	Behning "The sweetest tone piano made." The Behning piano enjoys an enviable reputation among lovers of a real sweet toned house piano.	\$500
Kurtzmann "Made for over half a century." Sold in Rochester over 25 years and is a superior buying proposition. They run back sixty years without a single change in quality.	\$400	Fischer "Oldest firm in the piano history." Almost 100 years making pianos, and that means they have superior reputation to carry on.	\$450
Chapman "The Musician's Choice." A piano made to wear a lifetime and embodying every thing that the most critical could desire.	\$425	Kohler & Campbell "You pay for nothing but tone and construction." This firm is one of the most enterprising in existence, and they present a very tempting proposition.	\$300

We also have several of the above Pianos, slightly used, at
GREATLY REDUCED PRICES
