

# FATHER KOENIG'S NERVE TONIC

Has No Equal as a Nerve Tonic.  
Alton, Ill., March 14th, 1908.  
I was taken down with rheumatism about 1898 and it made me helpless and a cripple. I suffered untold agony and it ran down my physical strength and made me very nervous. I used one bottle of Father Koenig's Nerve Tonic. I will cheerfully and honestly say it has no equal as a Tonic and leaves no bad reaction on the system and I would recommend it to all nervous people.  
M. MESSI.

Ladysmith, Wis., February 20th, 1908.  
My daughter Nellie became very nervous and the doctors said she had Nephritis but their medicine did not help her, so Mrs. Kennedy of Unity, Wis., called my attention to Father Koenig's Nerve Tonic which had cured her little grand daughter of St. Vitus' dance. I procured a bottle which my daughter used according to directions and was over her nervousness before the bottle was used.  
THOMAS HAYNA.

**FREE** A Valuable Book on Nervous Diseases and a Sample Bottle to any address. Post patients also get the medicine free prepared by the Rev. Father Koenig, of Fort Wayne, Ind. since 1876 and now by the  
**KOENIG MED. CO., Chicago, Ill.**  
100 Lake Street  
Sold by Druggists at \$1 per Bottle, 6 for \$5. Large Size, \$1.75, 6 Bottles for \$9.

### THEY WON'T TELL THEIR AGE.

Savings Bank Clerks Have Trouble with New Women Depositors.

On the first of the year the savings banks are particularly busy with folks opening new accounts. But just because they are new accounts the depositors are not necessarily young folks. Perhaps that explains why the clerks have difficulty in getting new women depositors to tell their age.

One bank worker says it is no joke to try to get some of the women to give information about their ages. They are very apt to hesitate and then to say they can't exactly recall the year in which they were born, but that their age is about so and so.

"Now, as a matter of fact, they know perfectly well the number of the right year, but in the confusion when they are trying to conceal it, they can't just make the right subtraction," said the bank clerk.

### A Case Worth Trying.

Mr. F. Philander Towersby, a most excellent citizen, though not noted for lavish prodigality, received recently a consignment of very rare Tokayer Ausbruch. He sent one bottle of the delicious wine to Justice Fordyce of the Supreme Court, who happens to be one of the most eminent connoisseurs in America, and with the bottle sent a note asking his Honor's opinion of the vintage.

Mr. Towersby received next day this reply:

"My dear Sir.—I beg to thank you for the confidence you repose in my judgment as shown by asking for my opinion.

"But inasmuch as I am a lawyer, many years of training and experience make it impossible for me to give an opinion on anything but a case."

### "War of Jenkins' Ear."

While the British parliament was debating the question of war with Spain in 1740 a war that was being hotly urged by the people of the southern colonies and by the colonial and English traders, one Jenkins, a sailor, appeared before parliament and exhibited one of his ears that had been sent by the Spaniards. This turned the tide against Wepole's peace policy and the war was known as "The War of Jenkins' Ear."

### NOVEL VENTILATION SYSTEM

Experiments Have Demonstrated Its Efficiency.

Attention was drawn to this important question at the recent congress of medical officers by The Hon. Glover Lyon, M. D., who made several interesting suggestions concerning the possibility of fresh air in ways and every where.

Dr. Lyon, after four experiments, developed a system of mechanical ventilation of the home, draught or expeller, and the expense of this system has been demonstrated.

The presence of mechanical ventilation as at the club and hotels, where the system has been put in operation.

The Hon. Glover Lyon, M. D., has demonstrated the efficiency of this system in a number of experiments in his own home, and in a number of other homes in a similar manner.

The result is a system of mechanical ventilation through the roof, which either draws or expels the air to side or in any direction which may be required.

The movement of air along the conductors is not produced by the air passing along the conductors, but by the fan in the room.

A room is made of iron, steel, tin, lead, and other materials, and is fastened to the floor by way of a screw, which is twenty feet long, and is fastened to the wall by a screw, which is twenty feet long.

The system is a simple one, and is easily understood by all. It is a system of mechanical ventilation through the roof, which either draws or expels the air to side or in any direction which may be required.

The system is a simple one, and is easily understood by all. It is a system of mechanical ventilation through the roof, which either draws or expels the air to side or in any direction which may be required.

### Relieving His Grief

She was sitting listening to the beautiful story of a horse. He came to the point of it and stopped and sighed. Then he looked up at the woman and said "I'll have to stop now. If you excuse me, Aunt Mat, and cry a little while."

### Original Names

With the exception of a few famous names in Athens and Sparta, the Greeks had no family names. Latin surnames were derived from various qualities of mind or body, as Cato from a cat, Crassus, fat, Mac from a hawk, etc. Originally surnames were all signified. This is strikingly the case among the aborigines of America, our American Indians as Red Jacket, Black Dirt, etc. It is possible that his intimates and a few of his wives called King Solomon "Sol." We speak of the sun as "sol." But Solomon in Hebrew means peace. Who ever heard of Mrs. Abraham, or Mrs. Sarah Abraham? Sarah means princess. The great progenitor of the Jews was not Mr. John Abraham, or Mr. Saul Abraham. He was simply Abraham, meaning the father of a multitude. He was originally Abram, meaning the father of height, the additional syllable being stuck in when the promise of a numerous and beautiful posterity was renewed to him by God.

### Essence of Culture

The very essence of culture is shaking off the nightmare of self-consciousness and self-absorption and attaining a sort of Christian Nirvana—lost in the great whole of humanity, thinking of others, caring for others, admiring and loving others. E. R. Hill

### Women Then and Now.

The "old-fashioned" women certainly knew how to rule, and "advanced" though we may be, we do not manage to wield so much power, on the whole as the clever women of past generations. It must be that our methods are at fault.—Lady's Pictorial.

### A Formula.

Right ideas, backed by persistence and promulgated at psychological moments, will gain a foothold and become a great force for good, no matter how determined may be the opposition.—Detroit News.

### Educated to Housework.

Housework and marketing is part of the education of a Belgian girl. She is taught these subjects in the public schools.
