Decision Reached of Macdonough Monument.

One more the Catharine Hamann School has come forward to do honor to one of the commanding figures of American history. The Tercentenary celebration of the discovery of Lake Champlain early in July, was a fitting tribute to Samuel Champlain, sailor, explorer and navigator. The present week has witnessed another significant occasion, the dedication of Macdonough monument, erected by Act of Congress in memory of the heroes killed in the fight under Commodore Macdonough's command, when the gallant warrior met the British fleet to battle for the independence of that infant republic which the labors of Samuel Champlain had made possible. This singing of patriotic songs by the children, patriotic speeches, and the reading of the celebrated poem, "The Battle of Lake Champlain," by John Jerome Pease, formed the principal commemorative features.

Without question, the finest musical program ever given at Cliff Haven was presented at the grand concert the past week. Such a concert as that of Saturday evening is not only a credit to Mr. Bernard Sullivan and the officers of the school who made such an evening possible. One of the most important events of this week was the visit on Sunday evening of Rt. Rev. Henry Gabriel, Bishop of Ogdensburg, and one of the vice presidents of the school. The lecturers of the week have been Prof. Arthur F. J. Remy of Columbia University, of New York; Dr. John G. Coyle of New York; Miss Sophia Gertrude Malley of Philadelphia.

The pleasing announcement is made that beginning with the matinee next Monday, August 10th, the continuing for the week, Bert Lyell and his company at the Baker Theatre will present for the first time in Rochester by any company, Willie Collier's hilarious comedy, "Caught in the Rain," described as a "down-pour of laughter in three showers." Mr. Lyell and his company are at their best in comedy and those who like to enjoy a hearty laugh (and who does not) may look forward to having a chance to enjoy themselves in this fashion, so the matinee "Caught in the Rain" is an American play with American humor.

Mr. Lyell and Miss Adair are always at home in comedy roles, and the balance of the company have been most happily cast. The usual matinees will be played on Monday, Wednesday, Friday and Saturday.

DISINFECTANTS, NO ODOR. Such is the Aim of the Leaders in Germinol-Materials. Distincting has now developed, according to leading dealers in germ-killing materials into a question of producing an article which will kill odors and germs without the disagreeable odor so common to disinfectants.

It is now possible to obtain preparations containing formaldehyde in which the irritating effects of the gas are eliminated. The only objection, therefore to the universal use of formaldehyde is its odor. Formaldehyde in a dilution of 1 to 10,000 killed anthrax bacilli in 30 minutes and the cholera vibrios in two hours. Formaldehyde in a dilution of 1 to 15,000 inhibits the growth of typhoid bacilli and in a dilution of 1 to 20,000 inhibits the growth of glandular bacilli and the spicillus of cholera. -New York Sun.

Poetic Justice. A man whose soul has been tortured frequently by the remarks of his wife who takes a sardonic delight in setting a price on the handsome clothes worn by other women, one day found sweet comfort in the incalculable comment of a woman in a crowded car.

"Oh! yes," said the observing other woman, "he that looks well enough, but it is cheap. It couldn't have cost a cent more than \$4."

Thereupon said the man to his wife: "Why do you always pick out the most expensive clothes for special notice? Why don't you look at something cheap once in a while? There are cheap things worn. There is a hat in this very car that cost only 25 cents. The woman just behind us pointed it out a minute ago."

"Well," said his wife, "you are the last person on earth who ought to feel proud of it. It was she who was talking about it." -New York Times.
