WE HAVE MOVED

Perhaps the news of the arrest of Ferrer in the United States will wake up the Catholics of this country...

We think the trial of Ferrer is more consistent and more just when it is held in a court martial for Ferrer's own country...

Over the head of the Spanish government these organs of a pro-social liberalism are striking at the Church which preaches in Spain and which they hold responsible for the modernism that prompted the execution of Ferrer...

But Ferrer did not consider his hatred of the state to be a particular church of sect and chose these sham defenders of his spirit by championing their champion...

The Chicago Inter Ocean adds these illuminating sentences: Ferrer was what is known as a "philosophical anarchist"...

What was the influence of the teachings of Ferrer upon those most subject to them is revealed by the fact that his confidential assistant or secretary was caught in the act of trying to blow up King Alfonso on the latter's wedding day...

Ferrer was not only one of the public enemies of the state but he had been teaching in his school and through the schools he established that all government is a usurpation that there ought to be no government as the term is commonly understood...
