THE RED CROSS

Combination Range

(For Summer or Winter)

Coal or Gas,

Either or Both

No more space required in your kitchen than with an ordinary range. With an improved Gas-Water Heater sufficient hot water for all ordinary requirements can be had in 10 minutes.

Special attention is directed to the vent pipe to chimney—thereby eliminating all possible dangers from gas fumes.

A complete Gas Oven attachment for Baking, Boiling or Broiling attached to the end of the Range. One of these gas ovens may now be attached to any Red Cross Range of recent construction.

Do not be beguiled into dispensing with the comforts of a kitchen range for coal or gas.
