Origin of Firewater

When the Hudson Bay Trading com ians it was found that by selling the ndians liquor they could more easily to induced to trade their politics. The lest whisky or intoxicant of inferior mality was distilled in England and rought to America in large barrels, but in transporting it overland it was and more convenient to divide it into mall kegs. The traders soon became ware of the fact that by diluting the which with water more furs could be obtained. This was practiced for ime-time, but the Indians learned that good whisky poured on a fire would cause it to flame up, whereas aid the whisky been diluted the fire would be quenched. It was by this cample experiment that the term "fire water" became a common word amon the Indiana. A chief who had experienced the bad effects of whisky among he people said it was most certainly distilled from the hearts of wildcats and the tongues of women from the effacts it produced - ited Man.
