West Webster, N. Y., Monroe Co., December 13, 1910.
The Oxygenator Co.,
Gentlemen:—This is to certify that I

Howard L. Pyle, of the City of Willington, State of Delaware, have this banner cures, her machine was received to and persuaded us to buy one, which day visited West Webster, N. Y. for from the Western N. Y. Oxygenator the purpose of interviewing Mrs. R. C. Co's office 6 months ago through Day that neight During that time this leg Griffith of this village, who for a period of seventeen years has been a suffer of Rhemmatic Paralysis of the most severe from. For five years she has been Gentlemen.—Permit me to relate to practically absolutely helpless requiring you my reason for being meerested in makes and warm."

Miss Olive E. Shumway is one of our full curative properties of the Oxygenator that neight purpose did and used it for the first time this leg was as cold as anarble After the third night's use of the Oxygenator, little-Rhem.—Permit me to relate to practically absolutely helpless requiring you my reason for being meerested in makes are nice and warm."

Rheumatic Paralysis of the most severe form. For five years she has been practically absolutely helpless requiring the service of an attendant to wait upon her bodlly needs. During the last five years she has suffered from cramps that contorted her limbs most painfully.

Three weeks ago Mrs. Griffith began the use of the Oxygenator and during specialists, but constantly grew worsethis period twenty-one treatments have been administered with results that have been little abort of miraculous—her seribed treatments faithfully for twelve—been little abort of miraculous—her worse, walked steadily to and from the adjoining room, raising her arms above her head with evident pleasure and delight.

I consider this exhibition of the results of the Oxygenator most profossally to lay this testimony before the world.

They propose to continue the treatforment was in a very bad condition, having to the propose to continue to was in a very bad condition, having to the propose to continue to was in a very bad condition, having to the propose to the propose to continue to was in a very bad condition, having to the propose to the propose to continue to the propose to continue to the propose to continue the treatforment with the Oxygenator to the propose to continue the propose to continue to the propose to continue to the propose to continue to the propose to the propose to c

Oct. 15th, 1910.

What is the Oxygenator to the Sick?

A device which cures all Natural diseases by Oxygen the life-giving element of air. Without drugs or medicines! Without electricity! Without operations or any painful or unpleasant sensation.

To The Well

Nature's Invigorator and Helath Maintainer. casional application will keep the blood pure and powerful; keep the body and brain charged with energy.

# How the Oxygenator Cures and Invigorates

The Oxygenator enables Oxygen to act!

The sick body closes its doors to OXYGEN. The OXYGENATOR artifically puts the sick body in condition to absorb great quantities of Oxygen. The Oxygen destroys the germs, purifies the blood, re-invigorates the whole system—restores health. Diseases can be banished at the first symptoms by the Oxygenator.
Nothing ELECTRIC about the OXYGENATOR—no morethan a common horseshee magnet.

Not A "Cure All"! The OXYGENATOR is Not a "Cure-all. It will not restore a limb nor will it cure ailments which originate from injury, such as cancer. But because it purifies and invigorates the blood and nearly all natural diseases come from impure or weak blood, the Oxygenator cures all

The OXYGENATOR is complete in itself; requires nothing. Lasts forever.

The OXYGENATOR is made in two sizes. Cash prices, \$25 and \$35. It can be bought on easy
