FRANK J. MEYER.

A fine opportunity in Second Assembly District is presented the voters to send to Albany an assemblyman that will represent them in the capacity of a man and public servant. Of rare quality and fine ability, Mr. F. J. Meyer a life-long resident of Rochester was born in Rochester 45 years ago. He has witnessed the growth of the city from a small village to the present city of Rochester with all its wonderful possibilities. Early in life he took up the vocation of a shoemaker and has followed that business ever since. Having been one of the earnest and efficient members of the KNIGHTS OF LABOR in those early days and later a tireless worker in the BOOT AND SHOE WORKERS' INTERNATIONAL UNION.

It was only natural that the same spirit of push and ability should prompt him to soon start in business which he did in 1890 with the result that now he owns and operates two of the largest retail shoe stores in Rochester, out of the downtown district.

As usual his spirit of progress and desire to be of service to his fellow men resulted in his forming and being elected the first president of the first retail shoe dealers' association in Rochester, an organization which later developed and grew into one that now embraces almost every shoe dealer in the city and had for its last president Mr. Eastwood, formerly president of the Chamber of Commerce.

Mr. Meyer also has the happy faculty of not only being a man of business ability but also is a man with the social instinct strongly developed as is shown by the fact that he is now a prominent member of the C. M. B. A., Branch 68, and also a member of the Holy Name Society as well as a man interested in all measures that concern the welfare of his fellow men and fellow citizens.

The Voters of the Second Assembly District could make no better choice at this time than to send Mr. Meyer to Albany and have in him a representative that is absolutely just and fair, a man above the suspicion of graft, an earnest student of public affairs and a man that believes in the home, the country and all that is good and best in life.

The Second Assembly District is composed of Sixth Ward (Third District), Eighth ward (Third, Fourth and Fifth Districts), Twelfth Ward (Fifth, Sixth and Seventh Districts), Sixteenth Ward (Third, Fourth and Fifth Districts), Seventeenth Ward (Second and Fourth Districts), Eighteenth Ward, Twenty-first Ward. Radium's Wonderful Power.

Suppose that the energy of a ton of radium could be utilized in thirty years, instead of being evolved at its invariable slow rate of 1,700 years for half disintegration, it would suffice to propel a ship of 15,000 tons, with engines of 15,000 horsepower, at the rate of fifteen knots an hour for thirty years—practically the lifetime of the ship. To do this actually requires 1,500,000 tons of coal.—Sir William Ramsay.

Fur Garments of Approved Design

In Fur Garments—the long coat still holds undisputed sway. Despite the earlier predictions of the shorter garments coming into prominence, the long garments continue as the latest approved styles. The models are loose or semi-fitting, with the fastenings placed low on the left side—giving a draped effect to the lines of the coat. The collars are of the large shawl design of self fur or of contrasting fur.

At the "Meng & Shafer" Stores you will find the latest models in any suitable fur—and "Meng & Shafer" Garments are noted for their fine materials—graceful lines—and exquisite style and finish.
