

Woman's World

Miss Bessie Yeakum
is a Modern Diana.

MISS BESSIE YEAKUM.

Diana, the famous goddess of the chase, in her adventures with bow and arrow never exceeded in prowess, and during the achievements of Miss Bessie Yeakum, daughter of D. F. Yeakum, the millionaire president of the St. Louis and San Francisco railroad.

This young lady is well known not only for her beauty and social grace, but as a sportswoman of no mean ability. While hunting recently in Texas she and her guide were attacked by seven ferocious wild hogs.

Deserted by the guide, who fled panic-stricken, Miss Yeakum leaped from her horse, dropped on the ground, aimed a fraction of a moment and fired while the first wild hog was several yards away. Two more of the hogs were killed by Miss Yeakum's gun with as many shots.

When her rifle failed her she ran for the gun dropped by her guide. With this she rounded up the rest of the hogs.

Suffragists on Fifteen Day March.

Several thousand enthusiasts in the cause of "votes for women" of New York state are on a fifteen day march to Albany from New York city. Miss Rosalie Jones, an ardent suffragist, is the leading spirit of the movement. The object is to reach Governor Elect Sulzer in time for him to put a suffragist petition in his inaugural message of Jan. 1.

Suffragists who do not feel like taking the whole 150 mile walk will join for as much of the jaunt as they can manage. In fact the pilgrimage is to be a sort of relay affair. But Miss Jones expects to be a through pilgrim.

Filling the Carbonic Siphon at Home.

One of the new devices shown in the progressive household departments of the shops is a recharging outfit by means of which any householder can in two minutes convert ordinary water or other liquids into the carbonized state. A glass jar incased in wire to make the operation quite safe in the hands of experimenters—a package of carbonizing capsules and a metal arrangement for connecting the capsules with the siphon are included in the outfit. One has only to fill the siphon up to an indicated point with water, milk, liquors or other liquids, inclose the capsules in its metal holder and turn a screw and the carbonation is completed.

Billiard Parlor For Women.

A billiard parlor for women has been opened in Kansas City by Mrs. Bertha May King, the champion woman billiard player. It has fifteen tables and female attendants. Speaking of her enterprise, Mrs. King said: "Women will be glad to learn the great indoor game if they are provided proper places. Few if any of the public rooms are exclusive enough for women. I propose to make my place one of refinement and exclusion, where women can learn and enjoy billiards and feel free to come and go. As an evidence of the benefit of the game as an exercise I can say that since I have played billiards I have rarely experienced a day's illness."

Tea Making Hints.

Use water which has just come to a boil, but which has not been boiled before or allowed to simmer on the stove for some time.

Warm the teapot by pouring in hot water a few minutes before the tea is required and allow it to remain in the pot until the tea is made.

Allow one teaspoonful of tea to each person, with one extra one. Pour boiling water and allow to stand for three to five minutes.

Fill the teapot or the tea will cool rapidly.

Inaugural Ball.

It is probable that for the first time in history the inaugural ball this year will be held in the rotunda of the United States capitol underneath the dome, which is surrounded by the Goddess of Liberty. The pension bureau, where the inaugural balls are usually held, is not available any longer because of the valuable documents and papers stored there, which would be jeopardized if fire should break out.

Milady's Mirror

To Avoid Grayness.

Most women past middle age look handsomer with gray hair unless they are fat and colorless, but the difficulty is to make them believe it.

A missionary says that few of the native women have gray hair when advanced in years. This she attributes to the nearly universal use of grease on the hair.

A scalp specialist when asked about this theory said: "There is much in it. Gray hair often comes from too little oil in the scalp. If women would grease their hair more it would keep its color longer."

The objection to a greasy head can be overcome. A little vaseline can be well rubbed into the scalp once a week. If this cannot be done without getting it in the long hair, go to a hairdresser.

If you will not use vaseline, at least give the hair a thorough oiling each time before it is shampooed, which should be about once a month in cold weather, oftener in summer.

Rub the hair with crude oil the night before it is to be washed. Do not use too much. About half what the amateur thinks necessary will be more than enough. As even this small amount is ruinous to bed linen, tie up the head and put an old case on the pillow. Some women wear a bathing cap for the one night.

Besides giving the oil needed to prevent grayness, this application of crude oil keeps out dandruff as nothing else will.

Where there is a tendency in families to turn gray early extra care of the hair must be taken. Do not use dry washes on it and be careful of hot curling irons.

Where there is a tendency to gray hair cultivate a placid disposition. Worry acts on the nerves, and nervous disorders unchecked are harmful to the hair. For the same reason fight off bad headaches. Besides their discomfort, the hair suffers. Thus indirectly eye strain is responsible for gray and falling hair.

Care of the Throat.

A famous throat doctor, who cares for the vocal organs of many of the greatest of our opera singers, makes the unqualified statement that if throats and noses were systematically cleansed many illnesses, including bronchitis, catarrh and consumption, would be averted.

A salt water douche and gargle to cleanse the throat and nose thoroughly should be used, he declares, at least twice a day.

"Fill a wide mouthed bottle," he advises, "holding a pint" with boiled water and add to it a teaspoonful of common sea salt. When you rise in the morning and when you retire at night, after gargling the throat with the solution, fill the hollow of the hand with it and draw it up the nose, throwing the head back. This last should be done carefully. It will cause coughing, but will completely clear all the little spaces and intricate passages of the nose and throat."

Telnet Suggestions.

When the hair splits clip the ends.

For ink stains on the fingers try lemon and salt.

Corns can be removed by daily rubbing with toilet pumice.

One dram of boric acid mixed with four ounces of distilled witch hazel make a good lotion for a greasy skin. Apply with a soft cloth or velvet sponge.

When the first symptoms of a headache appear take one teaspoonful of clear lemon juice fifteen minutes before each meal and at bedtime and continue until symptoms are past. For hitherto plain lemon juice promotes sleep and appetite.

Soap and water are needed to remove blackheads, which are caused by dirt collecting in the pores. After rinsing the face in clean water rub over it a piece of ice. This will contract the pores. After drying the skin apply witch hazel to it.

Mary Garden's Beauty Hint.

"Porridge and going to bed early—and a little drop of something that all good Scots take at critical moments—to this formula I attribute my—shall we say form?" Thus testified Mary Garden as to her mode of living last summer when she was resting at her country place near Aberdeen.

"Going to bed early is just as important as the other two items, and, as for porridge, I can assure any one who is afraid of gaining weight that a porridge diet will insure her against gain, but not against loss. You see, I am an example. I am in the best of health, eyes clear, complexion good, and I weigh exactly the same as I did last year, 127½, which is the proper weight for a singer."

For the Manicure.

Peroxide of hydrogen plays an important part in the process of manicure, for this not only bleaches out any discoloration, but it is a powerful disinfectant and will kill any germs which may have settled under the nails.

It is also useful if the file or scissors slip and cut the flesh, for it will purify the cut, and if used immediately there is no likelihood of the slight injury becoming more serious.

COIFFURE STYLES.

Pearls in Hair a Victorian Revival.

CLASSICAL HAIR ARRANGEMENT.

To the face with regular features this classic hairdressing is very becoming, but the woman with a plain or even merely a piquant face should beware of so severely simple a style.

IN FASHIONDOM.

The Negligee Has Long Sleeves This Winter.

OF PINK FANNELETTE.

The trim lines of this pink fannelette room gown and the long coat sleeves give it a smart up to date appearance. Pink satin binds the edges, and a pink cord finishes a practical and pretty negligee.

WHEN A ROOM IS STUFFY.

Cleanliness May Be Overcome When Windows Can't Be Opened.

There is no greater purifier of air than open windows, but sometimes in sickrooms this method of changing the air is impossible.

Have you ever tried overcoming closeness by carrying a rolled burning newspaper through a sickroom? Equally good is a tablespoonful of vinegar ignited over an alcohol lamp.

An atomizer for spraying cologne can be used with toilet water or witch hazel with refreshing effect.

There are special spirit lamps that have a connection with a platinum ball attachment that are excellent to permeate a room with purifying odors. There are special mixtures for burning in these lamps, but a good cologne or toilet water answers.

The lamp burns until the platinum ball grows red hot; then the flame is extinguished. The vaporization of the cologne is increased by coming in contact with the heated metal, and the room is soon fragrant.

A quick way to cool a room is to wet a small crib sheet with cologne or water highly scented with perfumed bath tablets. Hang in a draft of air or shake the sheet lightly while still wet.

Burning lump camphor is favored by some nurses, especially in sultry weather, as mosquitoes avoid the odor.

The Trousers Coat.

Extremes in juvenile styles are to be met with on every hand, but probably the limit has been reached in the coat illustrated, which is decidedly "Frenchy."

The material used is a moire poplin in a lovely shade of tan. Belt, cuffs

FRENCH MODEL OF SILK AND MOLESKIN.

and narrow turned-down collar are of moleskin.

As you see, the coat is exceedingly abbreviated at the bottom and narrows into almost the width of a man's trousers leg. On a tall, stylish child this coat is stunning.

CAMERA APRON.

It is Most Convenient For Carrying Paraphernalia.

The camera apron was devised for the convenient carrying of camera paraphernalia on out-of-door trips. A yard and a quarter of gray denim were used. The body of the apron was a straight piece twenty-six inches long, with a strip eleven inches deep across the bottom-for-pockets. The remaining eight inch strip of denim was cut into three pockets, two of which were placed above and one as a patch pocket over the middle of the lower row.

Tape was used for finishing the raw edges of the three pockets and served also for dividing the eleven inch strip into three more pockets. All raw edges were finished with wide white tape stitched twice. A facing of thinner cloth was sewed on top, and draw-strings were run through.

The pockets held plate holders, focus cloth, camera skin, record book, etc. One upper pocket was lined with camera skin for the shutter, with bulb and tubing which needed special protection. All pockets closed with a snap at the top, and the whole was folded completely when not in use.

For a man this might be made without drawstrings at the top, and it could be folded and carried by shawl straps.

What Man Understands Woman?

The query, "What woman understands man?" is not proving half so popular as Hughes' "Is Roux's query, 'Qui est l'homme qui comprend les femmes?'" ("Who is the man who understands women?"), the answers to which are filling the columns of *Le Matin* of Paris.

Says one-wise woman: "A man may understand any woman except the one whom he loves at the age of eighteen."

Mrs. Salaf-Malo says: "The man who understands us is the man who can admire everything in a woman, even her defects."

Another well known authoress asserts: "The man who can understand us is the man who can be our confessor."

One who sighs herself Emilie, says: "The man who understands us is the simpleton. He is the man who will recite poetry in our salons and not know how ridiculous he makes himself."

New Peacock Tail Embroidery.

Peacock embroidery has come much to the fore of late, and with some designers it is almost a fetish to introduce the "eye" of a peacock's tail feather into every scheme. There are attractive cushion covers in coarse holland crash, the peacock's tail design being worked in green, blue and gold, which is most effective, while oblongs and squares of this embroidery make charming trays, the bottom being covered with glass. Instead of investing a special tray for this purpose, in itself a usually expensive item, an excellent plan is that of fitting the embroidery like a photograph into an ordinary plain, molded picture frame and fixing two handles on either side, while the back is finished with Japanese silk.

Cooking Hints.

Orange peel dried and grated makes a very fine yellow powder that is delicious flavoring for cakes and puddings. Heat a lemon thoroughly before squeezing it and you will obtain nearly double the quantity of juice that would be obtained if it were not heated.

Rice boiled in milk instead of water has a much richer taste. It must be watched closely while cooking, as it burns quicker when cooked in the milk.

If you rinse a plate with cold water before breaking the eggs on it, add to them a pinch of salt and then stand the eggs where there is a strong current of air you will have no difficulty in beating them to a froth.
