"Hobey" Baker is now hailed as the greatest athlete Princeton university ever produced.

Opinion Divided on Boxing Weights.

The new scale of boxing weights as adopted by the New York state athletic commission and published recently has occasioned considerable comment throughout boxing circles.

Plan Big Rowing Regatta.

One of the greatest rowing regattas ever held in this country is being planned by rowing followers on the Pacific coast for San Francisco.

Mayor Fitzgerald an Athlete.

It isn't strange that Mayor Fitzgerald is a baseball fan of the thirty-third degree.

National Golf Championships.

The executive committee of the United States Golf association awarded this season's three national championships as follows: Amateur at Garden City, entire week, beginning Monday, Sept. 1; the open at Brookline June 4 and 5 and the women's at Wilmington Oct. 13 to 18, inclusive.

New National League Umpires.

Byron, the new National League umpire from the International league, is described as being five feet tall, weight 180 pounds, but with an endless supply of sand.

HUMOROUS QUIPS.

He Needed Watching.

"Did you see the lawyer?" her mother asked. "Yes." "What did he say?" "He said I had a very poor case. He told me that nearly every man lost his temper sometimes and said harsh things to his wife. Did father ever treat you that way?"

How to Save.

A Cleveland manufacturer hired a private secretary not many months ago. He had never had one before, but he thought he could afford the luxury it was, for the young man found little to do.

Smothered Mutton.

Cut in small pieces as much raw lean mutton as desired. Slice seven small potatoes thin, peel four large onions. In a baking dish put a layer of mutton and sprinkle with onion, salt, pepper and dots of butter.

Escaloped Clams.

One quart of soft clams, half pound of milk crackers. Run through the meat chopper. Now put a layer of crackers in baking dish, then one of clams, with bits of butter and salt and pepper till you have used them all.

Escaloped Salmon.

To one can of salmon add four or five common crackers broken into small pieces. Toss with silver fork until well mixed. Season with salt and pepper. Cover with rich milk. Dot with bits of butter. Bake half an hour in fairly warm oven.

Carrot Stew.

Cut the carrots in small pieces and cover with milk enough to stew them. Add salt and pepper to taste and a small piece of butter.

Polishing Glassware.

Wash the glass and rinse in hot water, then plunge into cold water until a handful of starch has been dissolved. Drain the glassware on towels until perfectly dry, then polish with a dry cloth. Cut glass should be polished with a soft brush.

Removes Iron Rust.

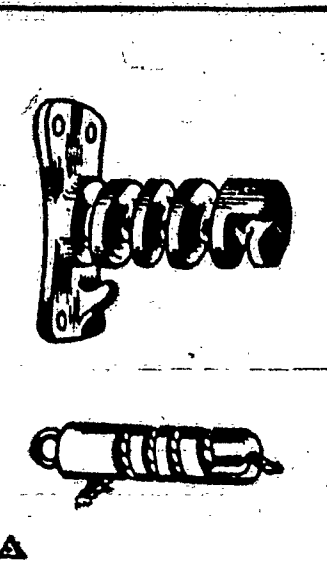

Place the iron rusted part over a small bowl three parts full of boiling water, so that the steam can come through to the material. Dissolve a teaspoonful of salt in a dessertspoonful of lemon juice, then dip the feather end of a quill in this mixture and rub over the iron until it disappears.

Figured It Out.

At a trial in Macon recently a negro was on the witness stand. He testified that a man who had been knocked down lay on the ground five minutes, and the opposing lawyer challenged the statement. To test the accuracy of the witness he took out his own watch and asked the negro to tell him when five minutes was up.

HINTS FOR THE BUSY HOUSEWIFE

Device For Fastening Clotheslines Without Knots.

A Wisconsin inventor has evolved a device which fastens clotheslines on any rope without knot tying. He has patented a rope fastener. One form of the device is a spiral which can be screwed up against the clothes post wherever it is needed.

Oyster Patties.

Bread two dozen oysters. Cut each one into three or four pieces and scale them in their own liquor. Put two tablespoons of butter in a saucepan, dredge in sufficient flour to take up the butter, strain the oyster liquor and put it into the saucepan with the butter and flour. Add a little lemon juice, cayenne and salt to taste, let it boil up, put in the oysters and three tablespoonfuls of cream or milk. Allow to heat, but do not boil.

Baked Ham and Eggs.

Chop or grind trimmings of cold boiled ham, put a rounding-tablespoonful of butter into a saucepan and when melted stir in a level tablespoonful of sour, a teaspoonful of vinegar, a dash of cayenne and one-quarter of a level teaspoonful of mustard. Let it cook until thick and simmer a little, then stir in as much ham as the seasoning will take up.

FOR THE CHILDREN

Water Colors.

Bodies of water take on different colors at different times. The intense blue that is sometimes noticed is often nothing more than the reflection of a clear sky from the surface of brown river water. But men that have studied the sea say that the water is bluest when it is most salty.

Personalities.

Have you played "personalities"? It is quite an amusing game for afternoon parties. The hostess, having two packs of cards, sits at the head of the table with the guests around.

Old Landmark Restored.

The Old North church on Salem street, in Boston, in whose steeple the signal lanterns of Paul Revere warned the country, April 18, 1775, of the march of the British troops to Lexington and Concord, has been restored to its original form and was reopened for religious worship on Sunday, Dec. 29, 1912.

Concerning Your Tongue.

As a matter of fact, there are only four distinct tastes—sweet, bitter, salty and acid. All the others are a mixture of the sensation of smell and touch.

Genendrama.

Who killed the most turkeys? Hamlet's uncle "did murder most foul." What is the difference between a candle in a cave and a dance in an inn? One is a taper in a cavern, the other a coper in a tavern.

Homemade Paste.

Put a dessertspoonful of ordinary starch into a cup and mix it into a thick paste with a little cold water. When the lumps of starch have quite dissolved fill the cup with boiling water and stir well for about a minute.

Why We Can See Smoke.

Smoke is not composed of gases only, but of solid or perhaps partly liquid particles, which are mixed with the gases and carried along by them. It is these particles of matter that are visible to the eye and not the gases themselves.

Riddle.

On the corner of the street I am usually found. Where I can look quite a distance around. I'm very tall, and my eyes are bright. And shines four sides all through the night.
