Planning for Men's Comfort

Although it is our aim to provide for men's comfort at all times, to-day we have in mind particularly their needs for the holiday this week.

Beginning at the top—there is the straw hat. We have made special provision in this respect. From London we have four excellent styles, all constructed in the most approved manner, high quality hats and all exceptional values.

Next we call attention to our line of men's shirts. Everything that any man could desire in both soft-plaited boom effects, laundered French cuffs, shirts with detached cuffs for the man who likes to take off his cuffs.

Dress shirts, silk shirts, flannel shirts as well. Then the sweater coat must not be overlooked especially now while mornings and evenings are cold. We have a big sweater assortment from which we can supply practically any desired style.

In men's neckwear we are better prepared to serve our men friends than ever before. Styles right, merchandise is right, prices are right—assortments are at their best.

Half-hose, too, present some most attractive members and there is wonderful diversity in the styles shown.

As for the raincoat, we believe we have the value—the best for style and service—to be found. At any rate, come in and see them and judge for yourself of their values.

Taking More of Our Own Medicine Because It Pays

Electric Rock drills have proven so satisfactory on the construction work at Station No. 3 that we have ordered two more for use on new work at Station No. 2-A.

We have also ordered another two drum electric hoist with swinging boom attachment, all of which we wouldn't do unless our experience with those devices proved beyond question that they were time and money savers.
