Country Homes for Catholic Families

There are in this section of the country, a limited number of exceptionally desirable tracts of land suitable for general farming or for fruit, truck and dairy farms. Present prices are considerably below actual value, and will soon advance rapidly as land speculators are beginning to pour into the country.

To protect Catholic land seekers and to furnish them with reliable information and assistance, Rt. Rev. Jos. F. Busch, Bishop of Lead has formed the Country Home Association of Western South Dakota, which society will give full information by personal letters to Catholics who can furnish first class references, if the enquirers will state what kind of farm land they desire, whether for general farm purpose or for fruit, garden or dairy.

Address: Country Home Association of Western South Dakota, L. B. 413 Rapid City, S. D.

The Seaboard New Steamer for Lake Erie

The maiden trip of the Great Ship "SEABOARD" from Cleveland to Buffalo, which took place on June 19th, was an event of historical importance, as she is by far the largest and most costly passenger steamer on inland waters of the world. She marks the last word in marine architecture and magnificence of interior appointments, and it is not likely that there will be built in the future anything of her type exceeding her proportions. Her actual dimensions are, 500 feet long, 98 feet 6 inches wide, 510 staterooms accommodating 1,500 people. She can carry 6,000 passengers and has capacity for 1500 tons of freight on her main deck. Her hull is constructed entirely of steel, and she is equipped with every modern appliance to ensure absolute safety.

The marvelous growth in recent years of both pleasure and commercial travel on the Great Lakes is largely due to the splendid steamers provided by the lake lines and foremost among these, is the C. and B. Line. The addition of this gigantic ship to their present fine fleet running daily between Cleveland and Buffalo will undoubtedly attract a vast number of travelers enroute either east or west. All railroad tickets reading between Cleveland and Buffalo are good on these steamers, which leave at 8 o'clock every evening, and the rail journey may be broken at either City to view the beauties of the "SEABOARD" and enjoy the luxury and comfort of the delightful lake trip.
