Preserving Pickles

In picking vegetables and fruits the first idea is to employ a means of pre serving these foods for a considerable length of time, generally until the winter, when there is a scarcity or utter lack of fresh fruits and green vegembles. For this purpose salt or acid iquor is used. In vinegar pickles the addition of spices and sugar aid in pre serving and increasing the palatable. ness of pickles. The sweeping condemnation against all pickles and condiments is ill advised and misguiding to those who depend on authoritative and official information in the line of dietėtics, says Lida Ames Willis.

There is a large class of persons who should avoid pickles or the use of acids of any kind. Nature or the abnormal condition of the system will soon demnatrate the danger of indulgence by the discomfort caused by too much acidity in the stomach. Do not eat pickles unless you crave them, and if ifter enting them, as an accessory, not in a large quantity, you feel no ill effect, but, on the other hand, assimilate your food properly, you may consider pickles are wholesome in your individual case at least.

The Silver Wedding.

Many of the wedding anniversaries are passed by unnoticed, but the "all ver wedding," that comes after twen ty-five years of married life, should always be celebrated. A quarter of a century of more or less happy married life is not so common a thing that it should be slighted.

Even if one's pocketbook will not stretch to cover an elaborate celebration it is always possible to invite a few relatives and old friends and do the thing simply but none the less en joyable for all that.

If a big reception or dinner is given on the twenty-fifth anniversary of the

wedding the invitations should be engraved. Sometimes a folded sheet of heavy unglazed paper similar to a wedding invitation is used and sometimes used for this dainty sigret ornament the invitations are like those used for designed to be worn with a gown of an evening reception or "At Home." The wording should be engraved in silver and usually runs as follows-

1888. Mr. and Mrs. Charles Stanton Brown request the pleasure of your company at the twenty-fifth anniversary of their wedding (or silver wedding, as one prefors) Tuesday evening, June nineteenth, at eight o'clock, fifteen hundred and two North Broadway.
