Christmas Recipes

Let Plum Pudding "Ripen" It is time for the Christmas plum pudding, which requires to be made long enough in advance of the holidays to allow for its proper "ripening." The secret of making a successful plum pudding will be found by following the English rule. After preparing the fruit and various ingredients do not attempt to attr them together, but knead. After this is accomplished pack solidly in a mold, bowl or bag which has been well buttered and dredged thickly with granulated sugar. Do not leave much room for the pudding to swell, as many puddings are ruined by the water boiling into the space left for it to swell in or even by the steam from the bolling water becoming condensed there. Now cover tightly. If a bowl is used, butter and sugar a large square of cloth in the center, the over the mouth of the bowl, cross, bring back to the top and the Suspend in boiling water to cook, taking heed that the water is not allowed to stop boiling for a moment from the colored velours, and so flexible is the time the pudding goes in until it is brim that the waterproof side of the done. If the water stops boiling the creation may be turned fuside out in pudding will be soft and sticky, even stormy weather. if the boiling is speedily renewed. A large pudding requires nine or ten is one of the fads of the season, and many housekeepers prefer to cook their able feature. The picture also illuspuddings in several small bags or trates the manuer of dressing the hair molds—will require not more than five over the ears under a modern hat-If the water bolls away and requires replenishing do so from the holling teakettle. After the pudding is done bang in a cool place until the day it is to be served. Then, still in its mold, plunge the American Revolution and kindred into boiling water again for an hour societies concerning one working of or two. Take out five minutes before the new income tax. These women serving, have ready some blanched and expressed condemnation of the tax aft-
