Long Vacations

are a damage to many school children in this country. They forget in vacation what they have learned in the short school year. In Germany, the school year is one-third longer than ours and the school day is one-third longer. No wonder they produce such remarkably efficient men and women.

The Rochester Business Institute has decided to assist in increasing the length of the school year for all school students and has accordingly arranged for half-day (9-12 A. M.) sessions for all school students who wish to get a better knowledge of Arithmetic, English, Spelling, and Penmanship or those who wish to study Bookkeeping, Commercial Correspondence, Commercial Law, Shorthand or Typewriting. This special term will open Monday, June 29, and continue 8 weeks, closing August 21.

Students who desire to take advantage of this offer, should plan to enroll the first day as a regular schedule of work will be arranged for the term. No books will need to be purchased, as School text books will be used.

In accordance with our regular custom only half tuition will be charged for this half-day summer session.

Remember the registration date, Monday, June 29th. Call up R. B. I. Vacation School for further information. Both phones. Adv.
