A Rain-Proof Glove for Men

Here is a glove that will meet with the approval of every man who has occasion to use a wet day. It matters not how wet you get, your hands will dry out again just as soft, just as pliant, just as you bought them. No stiffening, no shriveling, no cracking with the ordinary glove when it comes in contact with water.

A new secret process in the tanning is the reason for this welcome innovation.

These washable, rain-proof gloves are better than other gloves of good quality.

We have them with sewn pits of outstanding stitched back, in tan and fawn color, for \$1.50.

In a heavier weight, hand sewn, black, practically a non-ripable glove for \$2.00.
