Just consider this when you think of traveling out of town. Every business man, no matter how far away he may be in traveling distance, is "just a Bell telephone away" in talking distance.

When you go to your out-of-town customers by Bell telephone, you can do more business for the simple reason that you can "see" more customers in a given period of time.

YOUR customers are "just a Bell telephone away" from you. TALK to them.

About Men's Top Coats

In the last two years we have established a reputation here in the Men's Furnishing section for top coat values that has meant the saving of many a dollar to many a man.

Men have come to know that we can serve them with absolute satisfaction in this respect so in spite of the summer fall weather of the last few days, the top coats have begun to move.

We have better coats to offer this year than we have ever had at the same price, \$12.50.

Only high grade all wool materials, both foreign and domestic, are used in their construction.

Workmanship is of the best. Yoke and sleeves are lined with Skinner satin. All inside seams are piped.

There are double faced and reversible fabrics, some with self, others with velvet collars, including a wide variety in gray, brown, heather and black and white mixtures.

Light enough for fall wear, heavy enough for winter service, and the price—\$12.50—does not begin to give you an idea of their goodness.
