When Players Slow Down.

Talk with any wise old baseball manager or player and he will tell you that the slower a player becomes the more the player knows about inside baseball...

While he has all his speed the player breezes through carelessly. His physical fitness carries him through with lots to spare...

If all this is true just stop to imagine what Matty, the 'Iron Man' and Nap might have done when at the top of their physical speed if they only had the will and knowledge of inside tactics...

General Carlo Porro, Italian Subchief of Staff.

Photo by American Press Association

According to recent disclosures, the entrance of Italy into the military coalition with England, France and Russia against Turkey was arranged by General Carlo Porro, subchief of staff of the Italian army...

Count Carlo Porro is the son of a former member of the Italian senate. He chose a military career and has risen to the rank of major general in the Italian army...

General Porro is a man of strong character and by many of his countrymen is regarded as the leading soldier of the kingdom. In 1908, Premier Forti proposed General Porro for the post of undersecretary of war...

He was not a member of the house of deputies, a requirement. He was offered election to the chamber, but refused, and then for the first time in the history of Italy, he was placed in the cabinet without having been elected a member of parliament.

Early in his military career General Porro reached the conviction that the Italian army was far behind other European military establishments in efficiency. Last year when Salandra became premier in succession to Ghisla he was strongly recommended to appoint General Porro to the post of minister of war.

During the negotiations concerning the offer Porro submitted his views and declared himself willing to accept the post under conditions that Salandra would include without change Porro's reform program. This was refused. General Porro was then given command of the Sixth army corps and in April of this year was appointed subchief of the general staff of the army.

Head of New Labor College.

Eugene Victor Debs, national leader of the Socialist party, who recently announced the establishment of a national labor college known as the People's college at Fort Scott, Kan., has been elected president of the college. In his announcement President Debs says in part:

"The devotion and loyalty of the members of the People's College union will make this college a great working class school and a tremendous factor in the struggle for labor's emancipation. The People's college union is the one organized effort of the working class to control education. Through the correspondence department we are

reaching thousands of the working class with education. This is real service in the social revolution.

Mr. Debs is a native of Terre Haute, Ind., and is sixty years old. He began his business career as a locomotive fireman in 1871 and later served as city clerk of Terre Haute and also as a member of the Indiana legislature. For a number of years he was grand secretary and treasurer of the Brotherhood of Locomotive Firemen, and from 1893 to 1897 was president of the American Railway union. In connection with a strike on western railroads in 1894 he was charged with conspiracy, but acquitted. Then he was charged with violation of an injunction and sent to jail for six months. He has three times been candidate of the Socialist party for president of the United States.
