Business is Improving

The R. B. I. is a kind of business thermometer in two respects; first, in the number of students that enroll for its courses, and second, in the calls that come to it from business houses for graduates for office positions.

As to students now in attendance, the August and September enrollments in day and evening schools reach a total of 412, which is 33 more than the highest previous registration during the same two months in the entire history of the school.

In the second place, the increase in the number of calls for students for business positions from month to month clearly indicates improving business conditions.

Both day and evening schools are now being conducted in the Y. M. C. A. Building. Our new building at 172 Clinton Avenue South, -Adv.
