THE CATHOLIC JOURNAL

A Pleasant Time it was Thursday afternoon, and th pusemaids were in great evidence on me of the trolley cars. Presently one of them came in and took her seat and et once discovered an acquaintance altting opposite her. Leaning across the tisle, she said:

"Hello. Annie! Where you livin' "Oh. 1'm workin' away out in the ubn'hs now."

"Ain't it turrible lonesome out there?" "No. not a bit. You see, the house is on a cornel, and there is a church on the next corner and a fire engine house on the opposite corner and a police station on the other corner. Yesterday there was a funeral in the church, and the fire engine was called out three times, and two men was run into the station, all in one day. Then the couple I lives with don't git along very well. So, take it altogether, there's plenty doin' all the time; an' I never git a bit lonesome."-New York Trib-

Force of Habit.

"Funny things happen, even on stree cars," stated old Dad Bing. "Tuther day 1 got on one that was entirely empty, and at the next corner it stopped and let another gent on. He was a middle aged person with a faraway look in his eye, and instead of taking his choice of seats he grabbed a strap and hung there, swaying and fapping like a fresh caught fish. "'I don't aim to be inquisitive, pod-

ner,' says I: but if it's a fair question why don't you set down?"

"'Why-why,' says he. 'I could do that, couldn't N But, no, alas! It is Edward W. Mahan, fullback and too late to change the habits of a life-

MONG the many-wonderful things worth seeing at the Panana-Pacific Exposition, which President Hadley of Yale has described as "the most beautiful and inspiring exposition the world has ever seen," the Transcontinental demonstration of the Bell System has won distinction and has been awarded the Grand Prize of Electrical Methods of Communication.

For the first time, perhaps, thousands who have visited the Bell Telephone Exhibit have realized what the wonderful long distance development of the Bell System means to them personally; how it links them to their home interests no matter where they are, and increases the range of their social and busineme activities.

One of the practical results of this striking demonstration of long distance development will be a larger use of the Bell long distance and toll lines which unite 9,000,000 telephones covering the whole country.
