

Have You Seen the Latest in Gas Heaters?

They take up less space; are just as effective as ever, and the inviting and warming glow of the Copper Reflector is emphasized by the smooth black enamel finish of the metal body of the heater. These heaters have no key. Gas must be turned off at the fixture; therefore, they are unusually safe.

DEATH STRUGGLE OF SERB NATION

Fight to a Finish Against Overwhelming Odds.

WHEN I am killed you can see or surrender. This spoke King Peter of Serbia to his soldiers, fighting against the greatest odds that ever a nation was forced to meet.

Its foes and the coveted prize. Constantinople. They have a way of saying in the camps that the Serbian army comes from the backwoods of Europe. Perhaps so. Perhaps it is made up of peasants who have hardly put their soldier clothes for the past three years.

One day George Tibbitts was at an auction sale where a number of wafers intended to show women's dresses were being sold, and fancying the expression on the face of one of them, he bid a trifling amount on it just for fun, he said.

George gave his sister a look, and she turned the subject. A few days later the guest, Miss Eleanor Trevor, asked George how his wife was getting on.

George looked at his sister, as much as to say, "Didn't I tell you so?" The next day George came to Eleanor, looking almost heartbroken. She asked him what new trouble had come upon him.

Mrs. Beulah E. Jay filed of commencing drama, and, all unaided, she built a \$100,000 playhouse in Philadelphia to produce plays that the regular managers would allow to go begging.

Poor old China has to expect that it will be advised by all the rest of the world every time it wishes to sneeze.

PITH AND POINT.

If wishes were parts no nation would be at war.

Peace and the end of the world have still got the prophets guessing.

It may sound paradoxical, but the apple of a man's eye is usually a peach.

Some men are as agreeable as they look, while others just wear a smile in public.

The line between the real cure and pure business is frequently indistinguishable.

Spending a dollar before it is earned is like eating an egg that is to be laid tomorrow.

Conscience in some people is that which tells them when their neighbors are doing wrong.

Even after the war is ended it may take some years to wind up the diplomatic correspondence.

Reading about Europe's war begins to be exhausting, but it must be worn to have to fight the war.

Anyway, let's prudently hope that the war will not be prolonged until the rights of neutrals are definitely established.

The chap that's always flinching because he doesn't get what's coming to him may not be aware of his crookedly good fortune.

With the head mills already booked orders for the third quarter of 1918, it would appear that business would continue good for some time, anyhow.

His Decision

By DWIGHT NORWOOD

The day that Myra Bradley was of age he lighted a cigar, smoked from his home and walked to town. He had not looked back when a man accosted him.

Bradley looked both surprised and incredulous. "I have other information to give you that probably will balance what I have told you. You are not the son of your supposed parents. Your name is not Bradley; it is Stevens."
