YOUTH AND AGE. By F. A. MITCHEL. She was born a flirt. When she was a little girl she preferred the company of boys rather than girls; not that she was a tomboy, for she was very feminine. When she was thirteen she captured a boy of ten and gave him a genuine case of love. At fifteen she enthralled a man of thirty. At eighteen her admirers were numberless. At twenty her mother insisted that she should stop flirting and marry.

SMITHSON'S FORTUNE. The Girl Which Founded a Great Scientific Institution. The Smithsonian Institution at Washington was created by act of congress in 1846 to carry out the conditions of the will of James Smithson, an English chemist and mineralogist, who bequeathed his fortune to the United States of America to found at Washington under the name of the Smithsonian Institution an establishment for "the increase and diffusion of knowledge among men."

PERSIAN PAINTINGS. Oriental Art That Embodies the Essence of Romance. No dramatic, no passionate motive ever so grips and possesses a Persian artist as to absorb his whole imagination in the accessories of the scene with just as much care and attention in every detail as he devotes to the central figure.
