HOW To Give Tone and Character to a Room

THAT your home, whether it be in a four room flat or a twenty room mansion, shall be artistic is a laudable ambition...

The first and perhaps most important rule in furnishing a house is the following: Don't put big features into a small room.

To begin with the parlor, that apartment in the average home of today is not sufficiently capacious to accommodate massive upholstered furniture...

The dining room, if it is a dining room and not compelled, as of course many are, to fill the double function of refectory and sitting room...

The excellence of a library is naturally judged by the choice number of its books. But be your books what they may, if you would really boast a library in your house...

SKIDDING AUTOS. Why Cars Skid and How to Overcome This Danger. This is the time of the year skidding is prevalent, much more so than at other seasons...

Probably the greatest cause of skidding is turning a corner at too high a rate of speed. This often causes skidding of the front wheels as well as the rear wheels...

It takes a greater pressure applied laterally to start the wheel sliding than to keep it skidding once it is started, and you can bring the car to a stand still much quicker if you can keep the wheel from sliding...

How to Snapshot Yourself and Pose at the Same Time. The man with a camera rarely has his picture because of the difficulty of being in front of the camera and behind it at the same time...

Why We Hear More Clearly on a Frosty Night. When the atmosphere is dense, as on a frosty night sounds are carried farther and faster than when it is warm.

How the Magnet Will Hunt the Needle You Drop on the Floor. Much time is saved in hunting for lost needles if you keep a horseshoe magnet suspended from a string in your workbasket...

HOW TO MAKE YOUR FAVORITE PERFUMERY

ERY.—To the woman who has unemployed time on her hands and who would be interested in making some practical experiments the following perfumery formulas, reprinted from the Electrical Experimenter, offer a unique opportunity.

In all the following formulas secure the best ingredients regardless of price. Quality is of the first importance. Procure the best species of deodorized alcohol obtainable.

Yacht Club Bouquet.—Extract of santal, one pint, extract of neroli, one pint, extract of jasmine, one ounce, essence of orange flowers, one ounce, essence of cassie, two ounces, spirit of rose, one ounce, tincture of vanilla, one-quarter ounce.

New Mown Hay.—Tincture of tonka, four ounces; tincture of musk, one ounce; tincture of benzoin, one ounce; spirit of rose, one ounce; oil of rose geranium, forty minims; oil of bergamot, forty minims; rectified alcohol, one ounce.

White Rose.—Oil of Turkish geranium, two ounces; oil of bergamot, two ounces; extract of benzoin, two ounces; extract of vanilla, two ounces; alcohol, two gallons; water, two pints.

Violet Extract.—Essence of violet, four ounces; essence of cassie, one ounce; essence of rose, three drams; tincture oforris, one ounce; tincture of ambergris, two drams; tincture of civet, two drams; spirit of almond, twenty minims.

SANITARY PILLOWS.

Why One Should Be Careful in Selecting These Necessary Articles. With feathers an ounce of prevention is worth several pounds of cure.

Never buy pillows made of second hand feathers. You can never tell where they came or whether they go where they should.

Modern cleaning establishments, using either live steam or an electro-chemical process, offer the housekeeper every opportunity for the bacteriological cleanliness of her feather beds and pillows.

Buy only pillows made in factories which have a process for complete sterilization. One woman after seeing a film picture of the factory method of removing dirt from feathers and the mute evidence of how much it was needed wrote to the factory for a supply of the sterilized article.

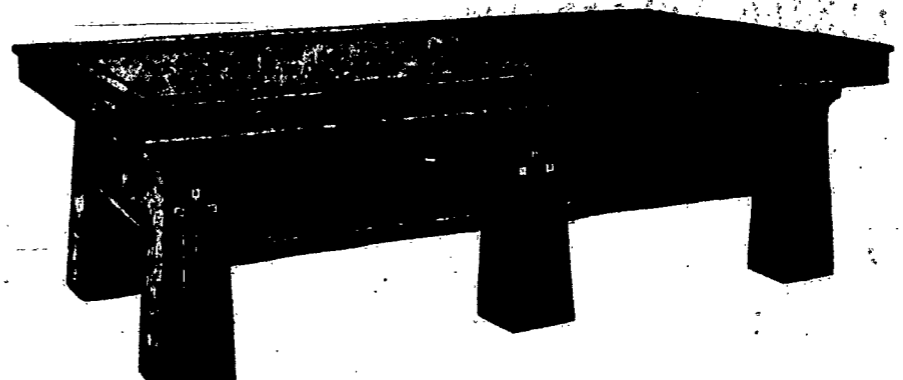

Why You Have Gooseflesh in Chilly Temperatures. Gooseflesh is nothing more or less than a contracting of the muscles under the skin.

More Satisfactory. A poetic contributor recently submitted to a magazine an effusion, entitled, 'The Lay of the Lark.' It was returned with this editorial note: 'Rejected with thanks. Send a few specimens of the lay of the hen just now. We will gladly accept them.'

Busy Listening. 'I bought my wife a parrot last week. Can he talk?' 'I don't know. He hasn't had a chance yet.'—New York World.

Gastronomy. 'How's your appetite?' asked the physician. 'It's all right till I go to buy food; then I get nervous and lose it.'—Washington Star.

Presidential Dignity.

Dignity is the most terrible punishment inflicted by the people upon their president. The president must always be on his dignity; he can never relax.

Isle of the Blast.

The king of England is not the only king in the British Isles. There is also the king of the Isle of Bardsey, an island of Wales in the Irish sea...

Rechter's Conducting.

It is difficult to define just what distinguishes a good conductor from a mere time beater, but a story that is told of Richter may help indirectly to define the problem.

Sun Rooms.

One of the best sun rooms of which there is any record was in Madrid, at the home of Carlos de Castillo, prime minister during the regency.

Legs of a Snake.

The front legs of a snake have some queer characteristics. One of them is that if you pull a live snake into a trap it will pull out its legs with it.

Settled.

Old Gentleman at his daughter's wedding:—My dear, I don't see how I am to get along without you. Bride:—Oh, that's all right, pa. Since the ceremony was performed my husband has confessed that he hasn't enough saved to start housekeeping, so you won't lose me after all.
