Men's English Straw Hats \$1.25

You'll look a long time before discovering as good straw hats as these for anything like this price.

English made--and that is a big recommendation to start with. They have self-conforming sweat bands which quickly adjust themselves to the head. Feel more like a soft hat--none of that stiff board-like feeling of the ordinary straw hat.

Made of an excellent quality of sennit--good style--and just over from England.

Have yours for Decoration Day--\$1.25.

TELEGRAM
WASHINGTON, D. C. May 7, 1916.

THEODORE N. YAIL,
President American Telephone & Telegraph Co.
I congratulate you and all of the forces of your company on the splendid success of the mobilization of the forces of communication in cooperation with the United States Navy.

JOSEPHUS DANIELS,
Secretary of the Navy.

ONE YEAR AGO the Bell System answered the call to the colors at the request of the Secretary of the Navy, and in cooperation with the Navy Department demonstrated its complete preparedness for any emergency.

A MOBILIZATION of the communication forces was ordered. For three days war conditions were simulated as far as possible. The Navy abandoned all other forms of communication between the Navy Department and its navy-yards and stations in the continental United States, and used the Bell System for communications by wire with all the naval forces in that territory.

THE RESULTS were most satisfactory to the Secretary of the Navy, to the naval officers, and to the telephone officials. The value of the service in the problem of National Defense and the preparedness of the Bell System to meet any requirements were conclusively proved.

This represents but a small part of a tremendous amount of work that has been done by the Bell System in order that YOUR services might be ready to meet any demands in commercial activities or in the National Defense.
