

Not Hesitating to Recommend It.
 824 11th St., Logansport, Ind., May, 1918
 Having suffered 3 years from nervousness at last found relief in Pastor Koenig's Nervine. It helped to dispense the blues, I found to do my daily duties, could not stand any exercise and would not be at home for my friends, did not want to converse with anybody, but now I regained my own so remarkable disposition. I have therefore not hesitated to recommend the Nervine to anyone suffering from such nervous ailment. M. G. Newman
 Mrs. P. Holland of Port Pierre, So. Dak., whose son was afflicted with epileptic spells since about 10 months tried several doctors without any improvement. She then tried Pastor Koenig's Nervine and has not had any more spells since he took 3 bottles. Therefore cannot praise it enough.

FREE A Valuable Book on Nervous Diseases and a Sample Bottle to any address. Poor patients also get the medicine free. Prepared by Rev. Father Koenig of Port Wayne, Ind., since 1876, and now by the KOENIG MED. CO., Chicago, Ill.
 62 W. Lake Street, near Dearborn
 Sold by Druggists at \$1 per bottle, 6 for \$5.

GOLDEN WEDDING.

"Their children shall rise up and call them blessed."
 A Thanksgiving mass was celebrated at St. Michael's Church at ten o'clock Wednesday morning, May 23rd, in honor of the golden wedding of Mr. and Mrs. Adam Wiesner of 69 Oakman St. A large number of relatives and friends were present to join in the service and greet them at its close. The ceremony was conducted by Reverend Fathers Hargather, Hoefen and Edelman. The rich voices of the priests intoning the service, and the singing of the male choir of the church with Mr. Pohl at the organ, produced a grand and impressive effect. The beauty of the scene was enhanced by a profusion of candles, shedding a mellow light over the golden colored flowers which adorned the altar.
 Mr. and Mrs. Wiesner were born in Rochester seventy-three years ago. Eleven children are living to honor and comfort them in their declining years. Sister M. Barbara of the Notre Dame Order, Mrs. William Allenby, Mrs. Joseph Wittman, Mrs. Frederick Hartman, Mrs. Edward Rehberg, Mrs. Keyran Tierney, George and Joseph Wiesner all residing in Rochester. Mrs. Joseph Bowman of Webster, Henry Wiesner of Greece and Lawrence Wiesner of Scottsville. There are also thirty-six grandchildren.
 In Syracuse, on the same morning, Lawrence James Allenby the eldest grandchild and the first to marry, was united to Miss Samantha Adams of that city. Later in the day the young couple arrived in Rochester and shared congratulations at the family home in Oakman St.
 Soon after their marriage, Mr. and Mrs. Wiesner settled on a small farm, which is now a part of Durand-Eastman Park. An old log house stood on the site of the present Durand residence and this was their early home. Later on, Mr. Wiesner purchased three adjoining farms. He then owned one hundred and fifty acres of the park, mostly woodland, which he cleared with the assistance of faithful employees and ox teams. During this time the family had moved into a more commodious dwelling where the door was often opened to some wayfarer who was made welcome to supper and a night's lodging, and many times the stranger gazed in wonder at the group of merry children gathered around the bountiful board.
 In this romantic spot, the little ones rambled and played and grew up under the guidance of a father who set before them an example of honesty and industry, and a mother whose kindness extended beyond her own household, and wherever their lot may be cast, memory will ever hold dear their childhood home. Let us hope that time will deal lightly with Mr. and Mrs. Wiesner, and grant them many more years of health and happiness, and may the youthful bride and groom be able, like their grandparents, to look back upon fifty happy, well spent years, when they too shall reach the golden sunset. For although customs and conditions change, nature and human experiences are the same through all the ages.

"And just as of old, the many stars appear
 In the blue dome of heaven, as in some forgotten year,
 The seasons come and go, the heat and the cold,
 And the time rolls on to-day, just as of old."
 Knights of Columbus.

At a meeting of Rochester Council, Knights of Columbus, the second degree was conferred upon a class of 107 candidates, Andrew Tuck acting as master of the degree work. The membership campaign committee members were guests at dinner of General Chairman Frank Hellen. The committee is rapidly approaching its goal of 1,000 new members.

Hints for the Garden
 Vegetable gardens under trees will not do well. Trees shade the plants and take the moisture from the soil. Swiss chard has been called the "city garden friend." It is also called the "cut and come again" spinach. This vegetable returns maximum results for little care and space, yielding from July until winter. The leaves are used for greens the same as beet tops of spinach.
 By the end of May it is safe to plant such tender vegetables as cucumbers, squash, melons and beans in the open ground.
 Cabbage seed should be sown now for late planting for a crop for winter use.
 Tomato plants will do best for inexperienced gardeners if not set out until the 1st of June.
 Twelve to fifteen bushels of potatoes are required to plant an acre when the potatoes are cut two eyes to a piece.
 Relieve strawberry plants that have been covered. See that the plants are sufficiently uncovered to get through the straw or leaves, leaving the covering to act as a mulch and to keep the plants cool.
 Eggplants, peppers and sweet potatoes should not be set out until the 1st day of May or first day of June.

Provide Pasture and Shade in Poultry Runs
 It is necessary to have double runs to keep the poultry yards sweet and sanitary, according to H. L. Harris, superintendent of the Kansas State Agricultural college poultry farm.
 One of the yards should be plowed in the early spring and seeded to oats. These oats will furnish good succulent pasture until the first of July. In this period the other lot should be plowed and Kaffir, cane or rape sown thickly. This will furnish the necessary green pasture from the time the oats are ripe until fall.
 Some form of shade is quite necessary to the best growth and health of poultry. If trees are not available or ornamental castor beans planted around the fences are quite satisfactory. It is necessary to protect these from the birds until they are a foot or so high, after which they will rapidly grow out of reach of the poultry.
 Sunflowers are not satisfactory for planting in the poultry lot, as they will not furnish the proper amount of shade. The poultry are fond of sunflowers when the plants are young and will quickly devour them.

Cream Succotash.
 To a dozen large ears of sweet corn allow one quart of fresh lima beans or a cupful of dried ones, soaked till tender. Put beans of either sort to cook in boiling water and add a pinch of soda. While they are cooking score the corn along lines of grain; press out the pulp with back of knife. When beans are tender drain. In a saucepan put one tablespoonful of butter, one tablespoonful of flour. Stir well, add a large cupful of creamy milk. Stir till thick and smooth. Add the beans and corn pulp. Cook two minutes. Season with salt and pepper.

Navigation on the Great Lakes

Navigation on the Great Lakes is now open, and the familiar sound of steamboat whistles is indeed a welcome one to many, for not only do the steamers afford relief from the freight congestion but also furnish a most comfortable mode of travel for passengers.
 Officials of the C. & B. Lines which operate the Great Ship "SEANDBEE" and Steamers "CITY OF BUFFALO" and "CITY OF ERIE" daily between Cleveland and Buffalo, predict that this season will surpass all other in volume in passenger and freight traffic. Never has business started with such a rush which surely reflects the general prosperous condition of the country.
 Vacation trips which afford change from the every day scenes are regarded as essential by the American people, and thousands are now turning to the Great Lakes for the alluring trips by water. - Adv.

How Houses Explode.
 The most remarkable phenomenon connected with tornadoes is the explosion of houses, which literally burst, scattering their fragments in all directions. Sometimes substantial dwellings are carried high into the air and then explode.
 It is now understood that this is due to the fact that the "funnel cloud" revolving at a rate of at least 500 miles an hour has a vacuum inside. Thus it sucks up everything in its path, even emptying wells. It sucks all the air from around a house over which it passes, and the house (a vacuum being thus created outside of it) promptly explodes, owing to the pressure of the air, at thirty pounds to the square inch, from within.
 The house, in a word, is transformed into a bomb - Philadelphia Press.

About Temperature.
 The best authorities on the science of meteorology tell us that without the various changes in the temperature there would be a perfect calm at all times in all parts of the globe. A uniform and unvarying barometric pressure would everywhere prevail, and there would be no change of seasons, no evaporation or condensation, no clouds and no rain. In short, without changes of temperature, which we sometimes think so uncomfortable, the atmosphere would soon become poisonous, stagnant and incapable of sustaining human life.

Awkwardly Put.
 "I grovel here before you in the dust," observed the impassioned youth as he sank on to the drawing room floor.
 "I don't know what you mean by dust," replied she coldly. "I look after this room most carefully myself every morning." - London Tit-Bits.

Top and Bottom.
 "My friend," said the long haired passenger to the young man in the seat opposite, "to what end has your life work been directed?"
 "To both ends," was the reply. "I have the only first class hat and shoe store in the village."
 To Clarify Fat.
 Fat is easily clarified if a few pieces of raw potato are added to it and then it is heated slowly in the oven or on top of the stove. When it ceases to bubble, strain through cheesecloth and let it stand till firm. Keep in a cool place.

EXTRA EXTRA EXTRA SCREENS SCREENS SCREENS

A few Reasons Why You Should Have Your Home Installed with the **STANDARD NU-LOK SCREEN**

1. Requires no hardware, carpenters or ladders to install the Standard Nu-Lok Screen.
2. All our screens are installed on the outside, from the inside of the window.
3. All windows can be washed without removing the screen.
4. Has no side frames to warp, crack or retain the heat.
5. Either window can be raised or lowered without interfering in any way with screen.
6. Stretching device prevents bulging, also enables screen to be tightened or loosened at will.
7. It is utterly impossible for flies or insects to get into your home when installed with Standard Nu-Lok Screens.
8. Takes less than one minute to install or remove, medium priced, durable and made to fit any window.
