

HEADS THE ANTIS

Senator's Wife Says It Is Her Duty to Accept.

LEADERSHIP IN HER HANDS.

Daughter of the Late John Hay, Formerly Secretary of State; Sister of Mrs. Harry Payne Whitney and Wife of United States Senator.

Mrs. James W. Wadsworth, Jr., wife of United States Senator James W. Wadsworth, Jr., has accepted the presidency of the National Association Opposed to Woman Suffrage, or the "Antis," as they are popularly known. Mrs. Wadsworth before her marriage

Photo by American Press Association. MRS. JAMES W. WADSWORTH, JR.

to Senator Wadsworth in 1902 was Miss Alice Hay, the daughter of John Hay, formerly secretary of state. She is a sister of Mrs. Harry Payne Whitney.

In her letter accepting the place, which was relinquished by Mrs. Arthur Dodge, Mrs. Wadsworth wrote:

"Although most reluctant to shoulder any additional burden outside the care of my family, the war relief work and the charities in which I am already engaged, I feel that it is my duty, in the interest of patriotism and national defense, to accept this office and to do my utmost to justify your confidence."

Mrs. Wadsworth deprecates the action of the suffragette pickets in Washington, whom she characterizes as disorderly and lawless and mischief making company, who because of their audacious spirits have more influence upon the electorate than the conservative woman voter would have.

"We are a country at war," wrote Mrs. Wadsworth. "Surely the qualities of leadership most needed at this time are strength, stability, breadth and fairness of vision, a direct and uncomplicated method of thought and action. Can we possibly hope to gain these by throwing into our national politics so inflammable and uncertain an element as the feminine vote?"

"FEED 'EM"

A New Battery For Patriotic Centers of Canning.

"The battery of 'feed 'em' is the slogan in every home in the land," says Charles Lathrop Pick, president of the National Emergency Food Garden Commission, "and that slogan should be heard in every schoolhouse in the land."

"Why not use the schools of the country as community canning centers two or three times a week? What better place could the people of the town or city have for meeting and furthering the work of feeding themselves by helping the government feed the soldiers? They are closed now and should be used to hold canning rallies."

"Reports coming to the commission in our nation wide survey of the garden planting situation show that the women are planning to can and dry food as never before."

"The commission stands ready to send free a canning or drying manual for a two cent stamp to pay postage to any woman in the United States. Make the kitchen your first line trench and shoot the requests for this expert free instruction with as rapid fire as you please."

"The women will do their bit if they have the proper instruction in the most up to date methods of conserving the food supply. The commission will work night and day to give it to them. All they have to do is to ask for it."

Savory Potatoes.

Nine medium sized potatoes, two onions, one-half cupful of water, six tablespoons of olive oil, one tablespoonful of powdered sage, one teaspoonful of salt, one-eighth teaspoonful of pepper.

Arrange potatoes in a shallow baking dish and add water, minced onion, seasonings and lastly the oil. Bake about an hour. The potatoes should be soft and brown.

Hold Down Your Spats.

A hook and eye will keep spats from turning up in front when worn with pumps. Place a straight eye on the top of the pump just below the instep and sew a hook on the inside of the spat.

How to Care for Foods in the Refrigerator.

DON'T BOARD PTOMAINES.

Points About the Nicety of Sanitary Compartments and the Least Care You Can Give the Matter Without Breeding Germs During Hot Weather.

First remove all food from the food compartment and with strong, hot soap suds, in which there is a generous handful of sal soda, notwithstanding its effect upon the hands, wash the compartment in every corner. Rinse out with hot water and then scald thoroughly with water from a boiling teakettle.

Wipe dry with a perfectly clean towel and wash and scald the doors and the ledges and shelves, which have been removed. Set the shelves in a current of air and leave the door of the compartment open so that it may cool. Then wrap the ice in a paper ice blanket and set in the food compartment and treat the ice compartment in the same manner. When all the water has run down the drain remove the drainpipe and scald it again and again with boiling soda and water. Noxious gases form in the drainpipe, and these literally poison any food with which they come in contact.

Cool the drainpipe and replace and when the ice compartment has cooled, set back the ice and close the doors, being very careful always to latch them, else a large proportion of the efficiency of the refrigerator is lost.

It is a good plan to go over the outside of the chest or refrigerator with an oiled cloth if it is a wood finish or with soap and water and metal polish if it is enamel metal trimmed. This will prolong the life of this piece of furniture. Its preservation is important for in case of moving it is often most convenient to dispose of such articles, and if they are in perfect condition they will bring more.

In storing away food care should always be taken to see that no rodents and overdo are allowed to remain around the rims of bowls and plates. A container which is shaped for butter is in the end most economical, for then old bits may be put away and the container need only be washed when a fresh supply is laid in.

Wash and sort all salad materials as soon as they enter the house, put them in clean white bags and shake to dislodge the water drops. These bags may be laid against the ice, and the melting caused is more than balanced by the crisp condition in which they appear on the table.

Never set a vessel directly on the cake of ice. If instant cooling is imperative chip off a bit of ice, crush and set the vessel in it.

Never leave the doors of the refrigerator open an instant longer than is necessary.

The effort of keeping a new refrigerator clean is a real pleasure, but where an old ice chest is concerned the work should be reduced by giving the entire box a coating of paint or two if need be. Aluminum paint does excellent service for the inside and stops up cracks and holes. This paint is also said to be sanitary. Where there are old wooden racks and shelves a scouring with sand, sal soda and soap will render them germless.

SMALL ELEGANCE.

Small Style For Wee Women as Chic as Ever.

Baby wears an imported frock of French lawn over a blue silk slip to accentuate the band effect of tucking

and dainty embroidery. The empire belt is scalloped on both edges to match the Lanvin collar. White rueling and rosebuds compose the bonnet.

How shall we reach this high standard? How can we prove that we have profited by our privileges and opportunities? We must prove that because of these advantages we are stronger, more purposeful, more successful and if possible more patriotic than our grandmothers.

For these privileges we must pay in added responsibility. In this grave crisis we must rise in the measure of our opportunities. We must prove that because of these advantages we are stronger, more purposeful, more successful and if possible more patriotic than our grandmothers.

LET EVERY WOMAN HELP.

How We May Attain the Statute of Our Grandmothers.

Fifty years have passed since American women have been able to show the stuff they're made of.

Since the days when your mother and mine scraped lint and prayed for the reunion of a divided nation we women of America have come into wonderful privileges.

Coeducation has become a magnificent reality. In many lines of industry and commerce we have attained a measure of economic independence of which our grandmothers hardly dared to dream. Medicine and the law have opened their doors to us as practitioners. Statutes have been revised increasing our rights. When the sovereign body of our government was called to decide the grave question of declaring war a woman sat in that historic hall and cast her vote.

For these privileges we must pay in added responsibility. In this grave crisis we must rise in the measure of our opportunities. We must prove that because of these advantages we are stronger, more purposeful, more successful and if possible more patriotic than our grandmothers.
