**Women Who Like to Embroider**

should take a little trip about Art Department on Second Floor and see the new things in Royal Society Package goods for fall.

There are pieces all ready made up and embroidered so you can see exactly how yours will look when finished.

Such dainty underthings, entirely made up, requiring only the embroidery and trimming.

Such cunning little baby clothes—dresses, rompers, caps, bonnets, bibs, booties—made of softest batiste, pique or rep. Notice, please, the carefully felled seams and evenly turned hems.

Then there are various luncheon sets, pillows and centerpieces, some in the new Owl design, with which to while away the summer hours.

Come in and see the new things while they are new.

**DOING OUR BIT**

**Help Save 57 Years Every Day!**

The Bell System handles thirty million calls every day!

If one minute could be saved on each call by a more efficient use of the telephone, the saving in productive time would amount to fifty-seven years every day!

In making this contribution to National Efficiency, not only would a large amount of time be saved every month for each telephone user, but also each subscriber would help to keep the lines open for the all-important messages dealing with the National Defense.

You can save time in the use of the telephone

By looking in the book to make sure you call the right number and thus save the time lost on wrong number calls;

By talking clearly and distinctly, directly into the telephone, so that repetition of parts of the conversation is not necessary;

By answering all telephone calls promptly with your name of the name of your company, so that time is not wasted in uncertain inquiries and introductions.

On most telephone calls a saving of one minute can be easily made without encroaching upon the subject matter of the message, simply by practicing more diligently the best rules for the use of the telephone.

Will you help save a minute a call in the interest of all?
