A TOUCHING AFRICAN CUSTOM

Bishop Lemaire, White Father,
who is Vicar Apostolic of the French
Soudan, gives us an account of the
fervor and devotion of the people of
his diocese. Here, as elsewhere, the
women are specially devout. Very
often at Mass a woman will have two
or three children by her side and a
baby on her back.

His description of the mothers re-
ceiving Communion under such cir-
cumstances is most touching:

"The mothers go to the altar with
their infants fastened on their backs.
It is beautiful to see the baby follow-
ing with his great white eyes (for the
blacker the face, the larger and whiter
the eyes appear) the action of the
priest placing the Sacred Host upon
the mother's tongue. There seems to
be an attraction between the God of
pure souls and these holy innocents.

"On returning to their places these
women do a most touching thing.
Bringing their infants before them,
they kiss the child so that the lips that
have received Christ touch the lips of
the baby, and the little one communi-
cates, as it were, in that manner."

AMERICAN PRIESTS NEEDED IN THE PHILIPPINES

Nowhere could American mis-
sionaries do more good than in our own
possessions, the Philippine Islands.
It is believed that if each diocese had
one such priest, he could wield an im-
mense influence over the natives.

A Jesuit, Fr. John Thompkins,
says in a recent letter:

"I have just returned from Tugue-
garao. There I met the Delegate and
Bishops Foley and McGinley. The
reception of the people in town to their
new Bishop was very generous. One,
however, sees with sadness the same
conditions religiously there as here in
Vigan. Not enough priests, the
youth are growing up uneducated.
American Protestantism is active. If
we could only have one American
priest in each Province much good
would be accomplished. We must
pray our Lord not to abandon this
portion of His little flock."

AN IMPORTANT SUBJECT
FOR CATHOLIC EDUCATORS

(Continued From Page Ten.)

the exercise of our freedom of will
and will-power. This is the God-given
moment in which we can exercise the
power to become free, and rescue our-
selves from our slavery, and advance
to our ideal and realize the great aim
of life, namely, to bring forth every
energy within us towards the perfect-
ing of our being and the education of
our energies for the purpose of good—
that is God. At this moment each
man and woman stands on the
threshold of a new life and success in
the event is only to be obtained by the
exercise of the Will.
