A most active and flourishing season is predicted for the St. Boniface Young Men's Club and every available effort will be launched to increase its membership. Not alone the young single man is sought for, but also the married man—old, young and middleaged, as there is always some good clean and interesting diversion scheduled for all sizes, ages and classes. Pool, billiards, bowling, volley ball and pinochle games are now in their prime and a number of these tournaments will soon be announced, in addition to a number of socials and smokers that will bring together the members of this organization. Announcement was recently made that lectures and a form of instructions on the Catholic Faith will be given each week at the Community rooms of this club, and the announcement was certainly a most welcome one, as it is essential and necessarily our duty to defend our faith and by attending these lectures, some very interesting and valuable information and data may be obtained, therefore it has created a wide and enthusiastic interest among the active members of the club.

Space-Saving Bed Couches Are Being Demonstrated Here

Many a house, many an apartment has some room which cannot afford to give up the space that the average bed requires.

Such rooms seem to grow larger the moment you install one of these bed couches. It is surprising what a difference they make in roominess.

This week we are having a special demonstration of bed couches in our Furniture section on Third floor. Some half dozen styles of folding couches are shown and each one will be demonstrated and thoroughly explained to you—its construction and operation—whenever you come in.

There are single couches that fold up in the middle—a single operation—with one finger does the trick.

There are couches that have a single mattress top for day use and when opened up for the night you find an entirely separate double bed mattress ready for you.

Another style is so arranged that there is a seven-inch air space between mattresses when couch is closed. This allows storage for the bedding and pillows and keeps all the bed clothes well ventilated.

A little ingenuity in selecting the covering and pillows will make your bed couch one of the most attractive features of the room. We hope you will come in and see how practical they are and how very reasonably priced—\$25.00 to \$30.
