Liberty Bonds.

While there is little doubt that the Catholics of Rochester are doing their full share in loaning their money to the United States Government in the purchase of Liberty Bonds, the appeal of our Rt. Rev. Bishop will only accentuate the resolution to still greater activity and still greater sacrifice.

A Word, Mr. Mitchell!

To the newly appointed chairman of the New York State Food Commission: While increase of food production and supply is commendable and to be desired, nevertheless the problem of present prices is a burning question to the masses.

Tit for Tat.

The editorial page of the Rochester Sunday Herald is pleasurable at all times because its writers are analytical and constructively critical, albeit they manifest evidence of being human.

WHERE "PEP" WAS NEEDED

Secretary Daniels, Discussing Efficiency, Relates Story of Girl's Advising Beau to Kiss Old Mare.

Secretary of the Navy Daniels is a firm believer in speeding up. Efficiency is the watchword of his department. A big navy can't be built fast enough for him.

Odd Indian Foot Race.

A foot race among the Tarahumara Indians is a most picturesque scene, especially after nightfall, when the course is lit up by flaming torches.

Splinterless Goggles.

Splinterless goggles are a new development that is expected to be of great value in military gas masks and for aviators, as well as for machinists, welders and other workers requiring protection for the eyes.

Why Not Fridays?

While the idea of "meatless Tuesdays" is not a bad one why not have fixed upon Fridays inasmuch as the Catholics already abstain from all meat on Fridays?

War Horses Are Veterans.

Driving the same team of horses for more than three years at the front is the record of a man in the Hussars.
