

TO TRAIN CRIPPLED MEN FOR NEW OCCUPATIONS

Red Cross Opens School to Help the Maimed in Battle for Existence.

The American National Red Cross has established in New York city a school for the training of crippled men in trades or occupations in which they can engage in spite of their physical handicaps.

RED CROSS BUREAU TO SEND NEWS TO FOLKS AT HOME

GATHERING INFORMATION THROUGH PARIS OFFICE.

Details of Casualties at the Front Given to Soldiers' Relatives.

To give relatives of American soldiers details of casualties at the front the American Red Cross has organized a national headquarters a Bureau of Communication, of which William R. Castle, Jr., formerly Assistant Dean of Harvard College and editor of the Harvard Graduate Magazine, is director.

Central Office in Paris. Any information of interest or consolation to relatives thus obtained will be transmitted to them through personal letters.

The information on which the Bureau will base its reports is gathered through a central office in Paris, under the direction of E. Gerry Chadwick of New York, aided by the Rev. Robert Davis of Englewood, N. J., and thirty assistants.

With the increase of the American forces and participation in the war, this number will have to be greatly increased. For the present the Bureau is reporting on all cases that come to its attention.

Food For Prisoners. There is a Red Cross service in Great Britain, France, Italy, Germany and Austria. In the London office of the British Red Cross more than two hundred women are constantly employed in communicating with relatives of soldiers and their card index already covers more than three million cases reported on.

The Bureau will receive through the International Red Cross office at Geneva, Switzerland, the list of American prisoners captured and held by the German government. In case of imprisonment the Bureau reports to relatives, after which the case is referred to the Red Cross Bureau of American Prisoners Relief of which Franklin Albot is director.

First Aid Director Appointed. Dr. Samuel W. Lambert has been appointed director of the Division of First Aid of the Bureau of Military Relief of the Atlantic division of the Red Cross. His duty will be to promote and direct classes in first aid among Red Cross chapters and other organizations and to pass on the credentials of chapter First Aid Committees. He has in charge the appointment of the chairman of these committees.

THE KITCHEN CABINET

They can conquer who believe they can. Courage consists in equality to the problem before us.—Emerson.

It is right to be contented with what we have, never with what we are.—James Mackintosh.

HELPFUL HINTS.

Save all vegetable liquors in which vegetables are cooked to add to various foods. Potato water may be used in yeast bread, grates and fried delicacies. As the mineral salts are largely dissolved in the water while cooking the vegetables it is economy to save every bit and use it in the food in some way.

A small flashlight is a great convenience around closets or cupboards that are dark. They are useful also in looking into cupboards and drawers. When food scorches and spoils, a tablespoonful of soda and enough cold water to cover the bottom of the drawer, boil up and then set it back to boil.

A glassful of hot milk will help many to remedy sleeplessness. Take in sips just before retiring. For tired and aching feet a tablespoonful of formaldehyde in a bowl of hot water, allowing the feet to soak 10 or 15 minutes, will greatly relieve them.

A Turkish towel wrung out of hot water and applied to the back of the neck will often relieve a sick headache.

Lubricate your meat chopper with glycerine. It will not flavor the food or become rancid.

A teaspoonful of glycerine added to grape jelly will keep the crystals from forming in it, which are so objectionable.

If a little cold water is added to butter and sugar when creaming it will cream twice as quickly.

Do no season steak until it is ready to put upon the platter.

When putting a cake into the tin, push the batter up on the sides if a layer tin, or from the center if a loaf. It will bake with a more even surface, avoiding the hump in the middle which is so unsightly.

If we could read the secret history of our enemies, we should find in each man's life sorrow and suffering enough to disarm all hostility.—Longfellow.

HELPFUL HINTS AND ECONOMIES

A most tasty fat for various uses may be made by trying out suet and mixing it while still hot with an equal portion of lard, stir until well mixed, and it will always stay soft enough to be mixed into any food.

When giving a baby medicine, place the tip of the spoon against the roof of the baby's mouth; in this way it is impossible for the child to choke or object to the contents of the spoon by sputtering. When teaching a baby to crawl from a spoon the same method will prove useful.

An old cork claims that all fish are better if allowed to lie two hours or so before they are cooked. A medicine dropper which refuses to function will be made active again by dropping it into hot water. The heat softens the rubber and expands it.

A thick slice of ham parboiled in a little water, then covered with sweet milk and a little brown sugar, and baked slowly, makes a most delicious meat dish.

A piano tuner advises the use of a small dish of water in the back part of the instrument to counteract the dryness of the room due to furnace heat. This will keep the piano in tune.

The old batteries which are useless and discarded from the auto may be burned in the grate after a wood fire has been started, making the most beautiful colors, especially delightful for a fireside party.

A tablespoonful of olive oil with a few drops of vinegar will ease a midnight cough when all else fails.

Half of a wooden clothes pin will keep a wind-rattled window quiet through the sleeping hours. A clothes pin or two will be found convenient to carry in one's suit case for various emergencies besides noisy windows.

A large market basket kept in the kitchen and used to carry down cellar, will save many steps, canned fruit, jelly and vegetables may be carried up in it. Such a basket will be found useful for carrying things upstairs and down.

FARMERS TO RUN LOAN CAMPAIGN

Plan to Enlist Associations and Granges in Agricultural Districts in Third Great Drive.

LOYAL SUPPORT IS PLEDGED.

Effective Co-operation Assured After Five-Hour Conference of Leading Men—Big Meeting at Ithaca, February 14, is Announced.

In order to assure to the agricultural organizations of the district more intimate participation in the third Liberty Loan campaign the Committee of the Loan for the Second Federal Reserve district has obtained the co-operation of an Advisory Committee of Farmers representing all sides of agricultural development.

President S. L. Stranges of the Federation of Farm Bureau Associations, agreed to send a letter to the heads of all farm bureaus throughout the state notifying them of the methods by which they can give most effective co-operation. The Farmers' League was equally cordial and within a few hours of the gathering Albert Manning, secretary of the league, sent a letter to the directors and county officers in which he said:

"This is a work in which there should be no loss of jealousy, as all classes have boys at the front, and we should unitedly enlist in the effort to furnish our government with the necessary financial assistance to win the war."

Big Meeting in Ithaca.

On February 14, when all plans shall have been worked out in detail, a meeting will be held at Ithaca, the buildings of Cornell University, which will be attended by representatives of the Federation of County Agents of the Farm Bureau Association and by officials of the Grange and the Farmers' League as well as members of the Fruit Growers' and Breeders and Live Stock associations of the district.

Following a series of district conferences between officials of the various organizations and the local chairman of the Liberty Loan boards, it is planned that the farm officials will call county meetings which shall nominate and elect farmers who will serve on county and community committees.

In following these lines it is believed that the farmers not only will obtain the best representation from among their own number for the work, but that, having picked these men themselves, they will give them loyal support in the campaign for the cause of liberty.

Large sums are not expected as a result of the organization of these local bodies, but the work has been undertaken by the representatives of the various associations with which the farmer is affiliated in a spirit of confidence that in the total of individual subscriptions the agriculturalists of the Second Federal Reserve District will set an example to farmers in all parts of the United States.

It is realized that the call upon the farming community has been serious and frequent, but it is also recognized that his patriotism is never dead when his government calls.

The best farmers, especially devoted to the various phases of the farmer's interest have entered most enthusiastically into the plan, and will support the movement throughout the campaign impressing upon their readers the fact that this is a farmers' movement, conducted by farmers for the credit and honor of the farmers of the Second District.

LINCOLN KNEW THE PEOPLE.

Abraham Lincoln said: "I know the American people are much attached to their government. I know they would suffer much for its sake."—Springfield, Ill., January 27, 1857.

Justify Lincoln's faith in his fellow Americans. Even if a little suffering is entailed, buy Liberty Bonds.

WHAT LINCOLN SAID.

Abraham Lincoln said: "The struggle of today is not altogether for today—it is for a vast future also. With a reliance on Providence all the more firm and earnest let us proceed in the great task which events have devolved upon us."—First Annual Message, December 8, 1861.

The task of making the world safe for democracy devolves upon us all. If you cannot fight buy Liberty Bonds, which equip and protect the State.

NOTES OF THE DAY

Several thousand acres are given over to the cultivation of pineapples in Hawaii.

Twenty-four lumber yards in Wisconsin now employ women as lumber handlers.

A loan fund of \$10,000 for helping poor students is one of the features of Henry Kendall college, in Oklahoma. No more than \$200 a year is lent to any student. The borrower must be a high school graduate.

According to released Englishmen, who have arrived from the camp for British civilians at Ruhleben, Germany, no food had been provided for them by the Germans in three months. They were entirely dependent on the parcels sent out from Great Britain.

Two complete sets of controlling devices feature a new automobile designed for instruction purposes.

The velocity of earthquakes is registered two hundred fold by a seismograph invented by a Japanese scientist.

An automobile tire pump has been invented that is slipped over the crank shaft of a car and operated by its engine.

The largest practical re-enforced concrete seagoing vessel yet built is a 6,000-ton craft recently completed in Norway.

TAKE A BATH!

Doctors Recommend External Bathing For Health Insurance.

It is necessary to bathe externally. How about an internal bath? Eating constantly you accumulate body poison. Constipation clogs the system. Disease starts from this condition. Father Mollinger's Famous Herb Tea cleanses the internal organs. Results are refreshing. New energy, bright eyes, rosy cheeks are certain signs of physical improvement resulting from systematic and regular use of these precious herbs left by a great priest-physician as a legacy to sick humanity. For rheumatism—stomach disorders, liver conditions, plantain, constipation, weak and run-down condition thousands write of remarkable benefits. A five-months' package costs one dollar. Write L. J. Mollinger enclosing \$1.00 cash stamps or money order.

If you want it sent so you can pay at your own post office we will mail it to you.

THE COME-BACK

"I know when I hired you you were no good. You'd better get your messenger job back again."

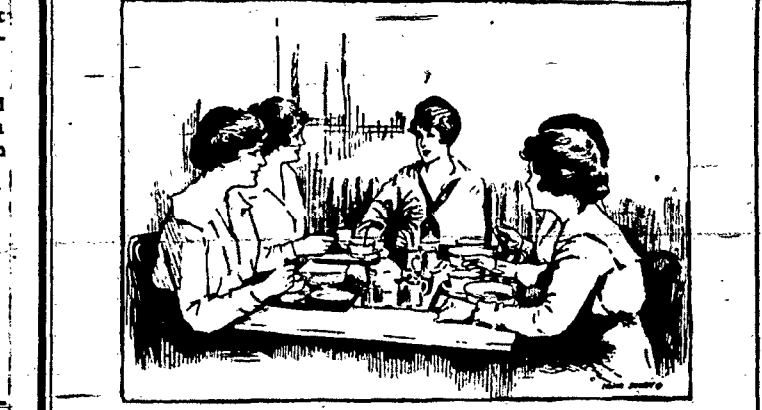

"Aw, dat job wouldn't be me now. You's guys are so slow around dis office yer spoiled wot speed I had."

COLD BUSINESS

"Oh! Stager—I hear you have the part representing young Giddishoy open in your new play. I hope I'm not too late for the place?"

Manager: Sorry, but you look about as good as dead.

A Corner in a Dining-room in a Telephone Central Office.

"Where there is Happiness in our Work there's Success"

THE telephone operator is no exception to this rule, and there's a reason why there is a smile in her voice as she says "Number, please?"

The telephone operator renders a highly important public service. She has many opportunities to make work easier and life happier for all of us, and in serving others well she finds that satisfaction in her work that makes her duties enjoyable.

Then, too, her pleasant surroundings contribute to her happiness. Her business home is a light, airy, clean central office with attractive sitting-rooms and modern dining-rooms.

Her position is permanent. Her opportunity for advancement is excellent. Her pay is good. She is protected in sickness and health by a Liberal Benefit Plan.

If you are interested in this most attractive profession telephone operating, telephone, write or call at our nearest commercial office and ask for a free copy of the illustrated booklet "An Ideal Occupation for Young Women."
