

TO TRAIN CRIPPLED MEN FOR NEW OCCUPATIONS

Red Cross Opens School to Help the Maimed in Battle for Existence.

The American National Red Cross has established in New York city a school for the training of crippled men in trades or occupations in which they can engage in spite of their physical handicap.

RED CROSS BUREAU TO SEND NEWS TO FOLKS AT HOME

GATHERING INFORMATION THROUGH PARIS OFFICE.

Details of Casualties at the Front Given to Soldiers' Relatives.

To give relatives of American soldiers details of casualties at the front the American Red Cross has organized at national headquarters a Bureau of Communication.

Central Office in Paris. Any information of interest or consolation to relatives thus obtained will be transmitted to them through personal letters.

The information on which the Bureau will base its reports is gathered through a central office in Paris.

With the increase of the American forces and participation in the war, this number will have to be greatly increased.

For the present the Bureau is reporting on all cases that come to its attention. However, it is probable that with the increase of reports from the front, information will be sent only to relatives requesting it.

Food For Prisoners. There is a Red Cross service in Great Britain, France, Italy, Germany, and Austria.

The American Red Cross Committee in Berne sends each American prisoner, every two weeks, three ten-pound food packages.

First Aid Director Appointed. Dr. Samuel W. Lambert has been appointed director of the Division of First Aid of the Bureau of Military Relief of the Atlantic division of the Red Cross.

FARMERS TO RUN LOAN CAMPAIGN

Plan to Enlist Associations and Granges in Agricultural Districts in Third Great Drive.

LOYAL SUPPORT IS PLEDGED.

Effective Cooperation Assured After Five-Hour Conference of Leading Men - Big Meeting at Ithaca, February 14, is Announced.

In order to assure to the agricultural organizations of the district more intimate participation in the third Liberty Loan campaign the Committee of the Loan for the Second Federal Reserve district has obtained the cooperation of an Advisory Committee of Farmers representing all sides of agricultural development.

At a meeting held in New York the plan that the farmer should direct the campaign himself, through his own organizations, was readily accepted, and after a conference lasting five hours those present pledged themselves to a prompt adoption of the plan through their respective bodies.

President S. L. Strickings of the Federation of Farm Bureau Associations agreed to send a letter to the heads of all farm bureaus throughout the state notifying them of the methods by which they can give most effective cooperation.

The Dairyman's League was equally cordial and within a few hours of the gathering Albert Manning, secretary of the league sent a letter to the directors and county officers in which he said:

"This is a work in which there should be no class jealousies as all classes have boys at the front, and we should unitedly enlist in the effort to furnish our government with the necessary financial assistance to win the war."

Big Meeting in Ithaca. On February 14, when all plans shall have been worked out in detail, a meeting will be held at Ithaca in the buildings of Cornell University.

Following a series of district conferences between officials of these various organizations and the local chairmen of the Liberty Loan boards it is planned that the farm officials shall call county meetings which shall nominate and elect farmers who will serve on county and community committees.

In following these lines it is believed that the farmers not only will obtain the best representation from among their own number for the work, but that, having picked these men themselves, they will give them loyal support in the campaign for the cause of Liberty.

Large sums are not expected as a result of the organization of these local bodies, but the work has been undertaken by the representatives of the various associations with which the farmer is affiliated in a spirit of confidence that the total of individual subscriptions the agriculturalists of the Second Federal Reserve District will set an example to farmers in all parts of the United States.

It is realized that the call upon the farming community has been serious and frequent, but it is also recognized that his patriotism is never deaf when his government calls.

The newspapers, especially devoted to the various phases of the farmer's interest have entered most enthusiastically into the plan, and will support the movement throughout the campaign impressing upon their readers the fact that this is a farmers' movement, conducted by farmers for the credit and honor of the farmers of the Second District.
