### Canning Fruit?

Try Wagner Aluminum Preserving Kettles for canning those cherries, strawberries or pineapples—they make good canning better. They are the thick kind—cast all in one piece—seamless, jointless. Heat more quickly than most kettles and hold the heat longer. You don't have to keep reheating—the fruit stays hot until the last jar is filled. This saves fuel—enough in time, to pay for the kettle.

Wagner aluminum preserving spoons don't spill over. Neither do they slide into the kettle—a new attachment prevents that.

Looking for a gift for a June bride? How about the Wagner set of tea kettle, coffee pot, tea pot and rice boiler? It is in the quaint Colonial pattern—pretty as silver and will last years.

Other Wagner Aluminum utensils—Krusty Korn Kob molds (wheatless days are no hardship with these,) bread stick pans, cake and jelly molds, frying pans, muffin and Vienna bread pans, etc.

Demonstration now going on—come in and taste the good things.

THE ROCHESTER has a "tone all its own," and the atmosphere appeals to those accustomed to refinement and the better things in life. Conducted in a high class, up to date Metropolitan manner, a credit to ourselves and a source of pride to the City.
