### City Parish News

Interesting Budget of Happenings  
Gathered by Our City Reporter

#### St. Peter and Paul.

The masses on Sunday will be at 8:30, 8:45, 9:30, high mass at 10:45 o'clock.

The feast of St. Peter and Paul was celebrated on last Sunday. The members of Commandery 28, Knights of St. John and Ladies' Auxiliary No. 44, received holy communion in a body at the 6:30 o'clock mass and the members of St. Peter's Society received at the 8:15 o'clock mass. In the evening the graduating exercises were held. Rt. Rev. Bishop Hickey presented diplomas to 75 graduates and gave the closing address. He congratulated the Knights and Auxiliary on being in the diamond jubilee class, as Sunday marked the seventy-fifth anniversary of our church. Benediction was said by Rev. Father Gefell and the singing of Holy God by the congregation closed the day's celebration.

On Saturday morning a requiem mass was celebrated for all deceased members of St. Peter's Society.

Among the boys who left for Camp Upton on June 27th was Clarence Reiter of Darien Street, one of the ushers of our church.

#### St. Boniface.

The masses on Sunday will be at 6, 7:30, 9 and 10:30 o'clock.

Next Thursday evening, the C. M. B. A., Branch 80, will hold their regular semi-monthly meeting.

The graduation exercises and entertainment was held at our parish hall on last Wednesday evening. The diplomas and medals were awarded by our pastor, Father Boppel. The class finished their studies in admirable fashion, attaining an average of 96.7-12 per cent. in the regents examination. Eighteen of the pupils received Palmer certificates.

The children of the school appeared in a fantastic and well-balanced drill and the entertainment was of an interesting and high class order. The stage setting and electrical effects and mechanical devices were cleverly arranged and exceptional good music was furnished for the occasion.

The marriage of Miss Helen Weis, daughter of Mrs. Elizabeth Weis, of 324 Caroline St., to Mr. Arthur Bubel, son of Mrs. Henry Bubel, of 55 Lorenzo Street, took place in St. Boniface Church at 9 o'clock last Wednesday morning, the ceremony being performed by Rev. John F. Boppel, our pastor. Miss Barbara Weis, sister of the bride was maid of honor. Miss Elizabeth Weis, sister of the bride was bridesmaid. Roy Bubel, brother of the groom was best man and Peter Satter and Henry Bubel were ushers.

The prenuptial affairs included a dinner given by Mrs. Peter Satter and Mrs. Flora Sippel; linen showers given by Miss Mary Weis and Mrs. H. Bubel and a variety shower by Mrs. A. Bubel and Miss Elizabeth Weis. After a short eastern trip, Mr. and Mrs. Bubel will reside at 385 Averill Avenue.

#### Cyrus Oberlin.

The order of masses on Sunday are as follows:—7, 8:30, 9:30 and 11 o'clock.

A very pretty wedding took place in this church on Wednesday morning, June 27th, when Miss Ella Marie Hale, niece of Mr. and Mrs. J. W. Hicks, of 34 Erion Crescent became the bride of Dr. Charles Pierce, son of Mr. and Mrs. David K. Pierce of 195 Grand Ave. The Rt. Rev. D. J. Curran performed the ceremony assisted by the Rev. John B. Sullivan. The bride was given in marriage by her uncle. She wore a gown of white satin and a tulle veil caught with orange blossoms, and carried a bouquet of roses and lilies of the valley. Miss Esther Madelyn Hicks, cousin of the bride, was maid of honor and was gowned in pink satin. The bridesmaid, Mrs. Hicks wore a gown of black satin and corsage bouquet of orchids and sweet peas. Mrs. Pierce, mother of the groom was gowned in grey georgette and wore a corsage bouquet of pink rosebuds. Dr. Milton E. Bock, of Buffalo was best man. Following the ceremony a breakfast was served at the Country Club. Dr. and Mrs. Pierce left for a trip through the great lakes. They will be home after September 1st at 232 Rosedale Terrace. Out-of-town guests were Mr. and Mrs. R. J. Hicks and Dr. Bock of Buffalo.

falo; Mr. and Mrs. J. A. LaPorte, Miss Alice and Master Alfred LaPorte of Albany; Miss Genevieve Wahl of Auburn and Mr. and Mrs. G. P. Lockyear of Boston. The bride was the guest of honor at a theater party by Mrs. H. B. Crowley; a luncheon, followed by cards at the Rochester Club given by the Misses Murray; a theater party by Miss Irene Schontz and a bridge party by Miss Esther Hicks.

The marriage of Miss Violet Isabella Homuth, daughter of the late Mr. and Mrs. E. C. Hornum of 98 Charlotte St., to Marvin E. Hogan, son of Mr. and Mrs. A. W. Hogan of 457 Main Street West, took place Saturday afternoon at 4 o'clock. The ceremony was performed by the Rt. Rev. D. J. Curran. The attendants were Laura Wilmarth and Mr. Alfred Marks of Victor. Mr. and Mrs. Hogan left for a trip to Cornwall Ontario, the former home of the bride.

The next regular meeting of Branch 139, C. M. B. A. and Br. 251, L. C. B. A., will be held next Tuesday evening, July 9th.

Council 40, C. R. & B. A., meets the fourth Monday of every month.

#### Cathedral.

A mass of requiem was celebrated Thursday morning at 8 o'clock in Lady Chapel, St. Patrick's Cathedral, for the repose of the souls of United States marines, Louis Whitman and Charles S. McGinnis, who were killed recently at Chateau Thierry, France. The men were graduates of the Cathedral High School. The mass was also for the dead soldiers and sailors in the American forces.

#### Knights-of-St. John Hold Memorial Mass.

In honor of dead members, more than 400 knights, representing all the Rochester commanderies, attended the annual field mass of the 1st Regiment, Knights of St. John, last Sunday morning in Holy Sepulcher Cemetery. Bishop Thomas F. Hickey, who celebrated the mass, was escorted by knights to the cemetery and back again to St. Bernard's Seminary. A large number of clergy of the diocese were present. The mass was a pontifical memorial one. The choir was assisted by Rev. Matthias J. Hargather, rector of St. Michael's Church. Deacons of honor were Rev. John Schellhorn of Our Lady of Perpetual Help Church and Rev. Joseph Mullaney, Deacon of the mass was Rev. J. Boppel of St. Boniface's Church, with Rev. George Burns of Sacred Heart Church as subdeacon. Following singing of the mass, Bishop Hickey delivered the discourse.

#### Must Have Regular Meals.

It is said that the native in India is extremely particular about regularity in his meals: once accustomed to eating at a certain hour he must stick to it at all costs. An English engineer had an awkward experience of this when erecting a 100-foot steel pole with the aid of about thirty natives and the minimum of tackle. The pole was halfway up when the "headman" intimated that it was dinner time. Only the most desperate entreaties, coupled with threats, prevented the men letting the pole come down with a run, though it had taken several hours to get it into this position.

#### Matter of Emphasis.

If a man wishes to give absolute emphasis to a negative he is quite likely to say, "No, a thousand times no." What he really means is that his negative resolution is so firm that he would be willing to repeat it an indefinite number of times. So far as his meaning is concerned he might as well say "a million times, no." But only a man of some habitual violence of speech would say this. It gives an impression of wild extravagance. "Thousand," while being comparatively moderate somehow seems more forceful.

#### Many Kinds of Courage.

The essential meaning of courage lies in the word itself. It comes into English by way of the French courage which comes in turn, from the Latin cor, meaning "heart." Courage is heartage, keeping the heart steady even in the presence of disturbing conditions. Sometimes it appears in the ability to keep the heart from fluttering when a sudden danger threatens; sometimes in the ability to keep going when life settles down into a grind and the heart would sink to despair but for persistent courage.

#### Who Built First Auto?

Just who built the first automobile in the United States is a matter of dispute. Elwood Haynes of the Haynes Automobile company of Kokomo, is one of the claimants of the honor. A machine built by him in 1893, which made a successful trial trip at the speed of six or seven miles an hour July 4, 1894, is on exhibition at the Smithsonian Institution at Washington.

### HILL PUZZLE TO GEOLOGISTS

Stone Columns on Eminence Near Pachuca, in Mexico, Out of Keeping With Other Formations.

A very remarkable geological freak in Mexico is a mountain situated near Pachuca which presents the appearance at a distance of being covered with spikes. The sides of the mountain are closely studded with stone columns or pinnacles. These columns are five to twelve feet long and as large round as an average man's body. It is a remarkable uplift of nature which has the appearance, however, of being the handwork of human beings. One side of the mountain is almost perpendicular and the stone columns protrude from the surface at right angles, forming an impressive picture.

Pachuca is one of the most noted mining districts in Mexico, and it is said by geologists that this remarkable spiked mountain is out of keeping with the remainder of the formation of the mineralized region. The stone is as hard as flint and has withstood the elements of ages. The spikes form a natural battlement that makes the mountain appear from a distance like an ancient fort. The mines of the Pachuca district are situated not far from this wonderful freak of nature, but the formation encountered in their respective underground workings is of an entirely different kind from that of the pinnacles.

#### How Tornado Originates.

The tornado of the Western plains is identical in formation with the sand-whirl. The sun beats fiercely on a limited area—say ten square miles of barren prairie—and as a result the air next the earth becomes very hot, perhaps 120 degrees, and the mass is constantly increasing in volume. Above the warm air is a stratum perhaps 20 degrees colder.

By and by a passageway is made, the hot air begins to ascend and the cold upper air, pressing downward, forces the lighter air through a channel thus formed. It begins to whirl, it increases in velocity, a surface current forces it along, and the tornado starts on its destructive journey.

The terrific cyclone originates in much the same way, only differing in extent. The most violent cyclones originate in tropical latitudes, in the Atlantic ocean, to the north and east of West Indian islands and in the Pacific, in the China sea and in the neighborhood of the Philippine islands.

The reason they are so destructive is because they are carried such great distances by extraneous influences.

#### Sheep Has Wooden Leg.

Charles Krauter, living near Bucyrus, O., had a lamb get tangled up in a fence and injure its leg. The veterinarian told him the leg had to come off. Krauter did not want to lose the lamb, so minus the leg he nursed it back to health and then fixed up a peg leg for it.

Now the lamb has grown to be a sheep and still stumps around on the wooden leg. Occasionally the wooden member becomes loose and falls off, and the sheep then hobbles over to a soft spot and walls until some one comes along to fasten the leg on again.

The wooden leg doesn't interfere with the sheep growing wool, Mr. Krauter says, and wool is wool nowadays.

#### Proud Record of Marines.

As the first battle of the American navy was fought and won by the marines, so, down through the years of the Revolutionary war, we find the marines at the forefront when difficult work was to be done. In fact there were but few expeditions in which they did not figure in more or less strength. Thus Lieutenant Wallingford of the marines died at the head of his men under John Paul Jones in the battle between the Ranger and the Drake; and in the classic fight between the Bon Homme Richard under Paul Jones and the Serapis, the marines lost 40 out of 137 men.

#### The Allotted Span.

The "allotted span" of life is, of itself, three-score years and ten. We knew a doctor who declared that if we lived sensibly we should not die till we were 150. Unfortunately, however, we cannot refer you to this gentleman personally for his prescription, as he died a natural death two years ago, at the age of thirty-six.—London Tit-Bits.

#### Thoughtful.

"You think too much about yourself," said the Moralist. "The secret of happiness in this world is thinking about other people." "I do think about other people," said the pessimistic person, "but as they all owe me money such thoughts make me feel more gloomy than ever."—Birmingham Age Herald.

#### Lantern Fly a Brilliant Insect.

The lantern fly of South America is said to be by far the most brilliant of all luminous insects. It sometimes measures more than 2 inches in length. The shape of the head is very curious. It is furnished with a hollow transparent snout nearly the length of the body, whence comes the lamplike light.

#### Literally.

"When you proposed to the wealthy painter's daughter how did you come out?" "With flying colors. Yes; he had drawn a palette full of paints all day as I beat it from the house."—

Sibley, Lindsey & Curr Co.

### When You Go to the Cottage

you go with the idea of living on the porch, on the water, out in the open.

How often those pleasant evening hours would be made even pleasanter if there were music at hand.

Have you thought of taking a Victrola to the cottage—or to the camp, for that matter?

You will wonder how you ever did without it when once you have made it a part of the summer equipment.

See what we have in portable—easily carried—Victrolas and add music to your list of summer pleasures.
