

HOW TO FIGHT OFF THE GRIP

Commonsense Rules Everybody Should Follow To Avoid Danger From Great Epidemic.

To keep well—keep clean. Avoid the person who sneezes. Warmth is necessary, be well clothed. Sleep well, eat well, play well. Avoid over exertion. Do not let yourself get run down. Those who are weak and run-down are the earliest victims. Remember that Father John's Medicine makes fighting strength to ward off the attacks of the grip germ. Keep away from houses where there are cases of influenza. A neglected cold leads to grip or pneumonia. Take Father John's Medicine at the first sign of a cold. It has had more than 60 years' of successful treating colds and coughs. Do not take medicine containing narcotics, depressives or opiates or other poisons. You are safe when you take Father John's Medicine because it is guaranteed free from alcohol or dangerous drugs.

Slenderline Suits Are Now Marked One-Third Off

While marking down our suits we have not forgotten the large women. We have reduced all the "Stylish Stout" suits as they are called--about one-third off.

These suits are made especially for the large woman. Over the correct corset, they give long, slender, becoming lines. As far as appearance goes, they take pounds of one's weight--so cleverly are they cut and tailored. Made with a long line from neck to waist, roomy sleeves, and ample skirts--points the large woman will appreciate.

Eight stunning styles. They are in velour, serge, Poiret twill, and broadcloth.

In dark winter shades. Some of the finer ones are fur trimmed.
