J. C. NUTZELL, Druggist, 397 West Main St., Fort Wayne Ind.

MENEELY BELL CO. TRUY, N.Y. 139 BROADWAY, N.Y. CITY BELLS HE NEVER TOOK A VACATION.

He never took a vacation, he hadn't the time, he said. It was home and the people and he was the only one of the kind in the country. He fought over his battles with them.

The Peanut. Not only is the peanut a valuable human food, but it has also great agricultural possibilities. It is estimated that more than 2,000,000 acres are under cultivation.

WASH CLOTHES TO KEEP BODY WARM

Fuel Regulations Create Demand for Garments That Are Comfortable.

HEAVIER FROCKS IN FASHION

Military Service Coats Among the Leading Favorites — Velours, Serges and Velvets Are Worn in the House.

New York. — The zero hour may have passed for the army, but it sends a layer of memory and respect through us. Heated houses, by their very nature, tend to make us forget that there are many technical details to be observed in the wearing of these garments.

We were told by a friend, a friend who is a member of the army, that the most comfortable and practical thing to wear is a heavy frock.

The stars are out, but the cold is still here. The stars are out, but the cold is still here. The stars are out, but the cold is still here.

Warmth is the Fashion. Let us say that it is the fashion to be warm. Let us say that it is the fashion to be warm. Let us say that it is the fashion to be warm.

Service Coats for Women. Those who design fashions are not content with a new output to meet new fashions. They are quite happy to give women with a variety of the accepted style of winter costume.

The British "Warm." The American military officer who, after the first months of winter in France, said all he desired was a German helmet and a British "warm" has been echoed as far as the latter part of the wish goes by the American woman.

Insulation to British Dead. "Their name lives forevermore." This is the phrase that will be engraved upon the great memorial stone which is to be erected in each of the cemeteries of the British soldiers who have fallen in the war.

Star Time Most Reliable. The oldest time in the world is the time of the stars. The oldest time in the world is the time of the stars.

Great British Soldier. Arthur Wellesley, first Duke of Wellington, was born probably on the 29th of April, 1769, in Dublin.

Look Up to the Stars. There are thousands of people who never look at the stars, except as possibly some bright planet attracts their eye for an instant.

Morse Inventor of the Telegraph. Samuel F. B. Morse, inventor of the electric telegraph, was a literary man and an artist before he became one of the world's greatest inventors.

TOO MUCH WASTED ENERGY

Man of Science Believed There Were and Sober Funds to Make an Investigation.

On November 10, 1922, one of the most peculiar petitions ever presented to congress was brought before the body of lawmakers, which was none other than a request from John Cleves Symmes, asking that aid be given him to make a voyage to the interior of the globe, which he believed to be inhabitable.

Notwithstanding which he was greatly respected as a man. He held that all planetary bodies, including the earth, are composed of concentric spheres, open at their poles.

Without going into the other extreme and becoming snails, but by striking the happy medium. Our success will come perhaps slowly at first, but surely, nevertheless. Exchange

MARKED PROGRESS OF MAN. Invention of Outrigger Canoe Was One of the Greatest in History of the World.

One of the great epoch-making inventions which is of Polynesian or perhaps Malay origin. It made practicable the exploration of the Pacific and the settlement of island groups separated from one another by vast distances.

SAVAGES USED "POISON GAS." Ingredients Were Different, but Object Was the Same as That Sought by the Germans.

As is well known, the Germans in the great war were anticipated by some savage tribes in the use of poisonous gas for war purposes.

Considerate in Death. When Sir Ralph Abercromby was mortally wounded in the battle of Alton he was carried on a litter on which he lay for several days.

Illness and Literature. There is nothing like a good, long illness for the cultivation of pure literature. It should not be too severe or needlessly painful for then you may overshoot the mark and be too weary to read or be read to.
