Figure your Painting Costs with a Brush
You can't figure the cost of painting by figuring what the paint costs per gallon.
What you want to know is how much the paint covers, how well it covers and how long it takes a man and brush to do the work.
One way you figure is with a pencil. The right way is with a brush. Figure this way and you will use Low Bros' High Standard Liquid Paint. Tell us about your painting needs and we will give you some eye-opening facts based on brush figures.

Men's Raincoats for \$3.95

We have never sold so many raincoats in the length of time as during the last two weeks. We haven't been able to keep the supply up to the demand.

Of course there's a reason. These coats are made from the same materials that Uncle Sam used for his soldiers overseas. The government had the material on hand and let it go cheap.

That is why you can get these splendid double texture tan raincoats with sewn and cemented seams, sleeve straps, storm collar, large slash pockets and inside pocket, for \$3.95.

We have just received 150 more of them. If you haven't a raincoat get here before this little lot of them is gone.

One of the best values we have ever offered in men's raincoats.
