St. Bernard's Seminary Alumni Hold Reunion.

The seventh annual reunion of the alumni of St. Bernard's Seminary, which was held in Rochester for the third time since its foundation in 1905 in the lifetime of the late Bishop McQuaid, took place on Thursday, May 22nd. This was the first reunion since the world war began and because it is the jubilee year of the seminary one of the largest gatherings in the history of the organization attended.

The association is made up of more than five hundred priests who have been ordained by St. Bernard's Seminary in the past twenty-five years, and who are laboring in more than forty dioceses in different parts of the United States, Canada and the insular possessions.

The committee was composed of Rev. John P. Brophy, Rev. Michael J. Krieg, Rev. Edward J. Bayer, Rev. James T. Wood, Rev. William F. Bergan, Rev. Edward T. Meagher and Rev. Leo V. Smith.

The program opened with solemn services at St. Patrick's Cathedral at 10 o'clock in the morning, in which some of the first graduates and members from distant dioceses took part and listened to words of welcome from Bishop Thomas F. Hickey. The Cathedral was decorated with the national colors. Besides the alumni there was present a large congregation made up of members of the laity, pupils of the Rochester Catholic High School and the children of the Cathedral School.

Following the mass a business meeting was held at Powers Hotel. Officers for the coming year were elected as follows: President, Rev. Ferdinand E. Bogner, of Hoboken, N. J.; vice-president, Rev. Francis Dickman, of Peoria, Ill.; secretary-treasurer, Rev. William Bergan, of Rochester; historian, Rev. Thomas Travers, of Port Wayne, Ind. Plans were made for next year's meeting which will be held in New York.

At 1 o'clock the banquet was served followed by several toasts, with Rev. John C. Carr, of Buffalo, as toastmaster. Seated at the speakers' table, on either side of Bishop Hickey, was Archbishop Edward J. Hanna, of San Francisco, and Rev. Prosper Liebert, professor and librarian of the seminary, who has just returned from five years in Belgium.

After Rev. Richard J. Patterson, of Cleveland, Ohio, had toasted the chaplain priests of the alumni, who numbered sixty, about 12 per cent. of the entire body, and spoke of their great value to the American Expeditionary Forces in keeping up the morale of the army, Father Liebert was called upon and he gave an address.

Archbishop Hanna, in speaking of the jubilee, paid a glowing tribute to the pioneer work done by the first bishop of Rochester and the band of priests and people who rallied around him in laying its foundation.

Bishop Thomas F. Hickey referred feelingly to the bond of affection which exists between the seminary and its alumni, and of how the annual reunions renew friendships and keep up happy traditions.

The reunion closed with a reception and luncheon at the seminary in the evening, given by the faculty and student body to the alumni.

World's Most Famous River. In the destinies of Europe the Rhine, says Hugo, "has a sort of providential significance. It is the great moat which divides the north from the south. The Rhine for 30 ages has seen the forms and reflected the shadows of almost all the warriors who filled the old continent with that share which they called the sword. Caesar crossed the Rhine in going to the south. Attila crossed it when descending to the north. It was here that Clovis gained the battle of Tolbiac and that Charlemagne and Napoleon figured. For the thinker who is conversant with history two great eagles are perpetually hovering over the Rhine. That of the Roman legions and that of the French regiments. The Rhine... bore at one time upon its surface bridges of boats, over which the armies of Italy, Spain and France poured into Germany."

Holy Rosary Church.

Try Both Ways. While it is true that the vast majority of people on this earth spend their nights in sleep, it is also a fact that many more people than one would suppose are awake at night and do their sleeping in daytime. Just think of all the night watchmen there are, all the milkmen, and just the natural night prowlers who like night best as a time in which to be awake and live.

Goat Cheese Popular. The people of Norway have for many years shown a success of the goat as a milk producer and money maker. One of the Norwegian farmers' principal pursuits is goat cheese making, and the popularity of this table delicacy is evidenced by the fact that Americans have been trying hard to "copy" it, with little success.—Exchange.

Beauty.

Oh, talk as we may of beauty as a thing to be chiseled from marble or wrought out on canvas; speculate as we may upon its colors and outlines, what is it but an intellectual abstraction, after all? The heart feels a beauty of another kind; looking through the outward environment, it discovers a deeper and more real loveliness.—Whittier.

WHAT WAR SAVINGS STAMPS ARE.

- (1) A safe, easy method to invest savings. The banks and post offices are handy; the government stands behind your stamps and pays you 4% per cent. interest, compounded quarterly.
(2) A safeguard fund against financial emergencies. Can be cashed in on 10 days' notice at post office.
(3) A cornerstone for success. Wise Savings Succeeds.

It's All Over but the Saving.

The war is over. The war is won. The great Victory Liberty Loan is over. We've seen parades, we've heard bands. We've had speeches and meetings and celebrations. But there are still some more boys to be brought back from overseas. There are still some debts to be paid for this glorious victory.

We are getting off pretty cheap! We don't have to pay a war indemnity! We merely have to lend our money for a war which we won! Isn't it rather easy after all? Let's hurry and help. Let's help regularly, steadily too. Let's buy all the U. S. S. we can and do our part as we think and rejoice over the victory. Let's not only cheer. Let's buy War Savings Stamps and finish up Uncle Sam's fine job!

And while our money is being loaned to us strong a government as the most exacting would want to find it's adding compound interest for us too! Pretty nice, eh?—Mary Graham Bonner.

Things on Which All Can Save.

(Prepared by Savings Division, U. S. Treasury)

No one can lay down a rule of saving which will be effective for other people. Everyone—man or woman—has to settle for himself the question of personal economy. The general basis for economy is wise spending, avoidance of waste, intelligent saving, safe investment. As the British wincey put it, "Beings to save at the point where you have supplied yourself with everything needed for efficiency." The best single suggestion that the Savings Division or anyone else can make for an individual probably is to give a little time to considering what he would do if his income was suddenly reduced by a fixed amount. To answer this he would have to consider where he could economize if he had to save. But if all of us took care never to waste anything and not spend foolishly nearly all of us could probably effect some saving. Most of us eat more of something than we need or is good for us. Most of us do not think enough before we spend. Think before you buy and you will have more for your money. This means a greater return for your work and more money left for thought. To quote from an English authority "Most of us could reduce our consumption of food without impairing our health or efficiency. Most of us could get along without alcohol without hurting ourselves at all. At least we could do with a good deal less of it. We could travel less often for pleasure or to save ourselves trouble. We could walk to our places of business instead of taking a tram to go half a mile." All of which translated to America means that the average individual can by logical economy purchase additional War Savings Stamps and at the same time actually add to his health, personal efficiency and happiness.

His Ultimate End.

The children were discussing a famous soldier, when four-year-old Benny asked: "Who is he, anyway?" "Well," replied wise first-grade Harold, "he's a wonderful brave man now, after awhile he'll be a statue."

You May Not Believe It, but—

If statistics could be compiled showing the number of men who have a sudden and smacking impulse to set the house on fire when the evening season approaches, the world would stand on its head.—Indianapolis Star.
