

What do you know about KEDS?

Very little, if you associate them in your mind with 'tennis shoes.' For KEDS are shoes to wear wherever shoes are worn. They are the highest type of canvas shoes, in the latest fashionable designs, and are made by shoe makers. They have rubber soles which do not "draw the foot." They are as handsome, as stylish, as comfortable and as durable as leather shoes. They are far more economical—a man with a wife, a baby and a young daughter can outfit the whole family for less than the cost of a pair of patent leather shoes for himself alone.
