

## How About Your Weight?

Do you realize that unless your weight is up to normal you are actually in danger of serious illness.

No insurance company will insure those who are underweight. Many thin people find that they gain weight steadily while taking Father John's Medicine.

The pure food tonic elements, which are contained in this old-fashioned prescription strengthen and build up those who are thin, weak and run down. It is real food and in a form which even the weakened system can easily take up.
