Modish Outfit Attractive With Fringe Trimmina.

Narrow Ribbon May Be Effectively Used; Satin, Faille or Velvet, According to Choice.

Style authorities continue to flirt with fringe in the general lineup of dress trimmings. Many smart winter frocks will feature this type of decoration and the greatest possible variety of fringes shown. Jet is a prime favorite both for daytime and evening dress trimming. Silk fringes of all sorts are used, and one of the very new fancies is for fringe made of very nerrow ribbon. The ribbon may be satin, faille or velvet, according to choice, and it may be as wide or as narrow as the individual taste dictates. Ribbon fringe may be bought by the yard at the dress trimmings counters in most of the big shops, but making it at home of ribbon that exactly matches the dress it is to trim is a very simple matter.

A frock, designed for either street or afternoon wear, features ribbon fringe as its principal trimming. This dress may be made of brown satin or very fine soft velours and trimmed with embroidered motifs in black and with black fringe and girdle, or the fringe may match the frock proper ens invisibly at one side.
