Friday, February 13, 1920. For God and Man.

In our news columns this week we publish a Washington dispatch, issued by the News Bureau of the National Catholic Welfare Council...

It will be an event of the utmost significance, not only to Catholics but to the entire citizenship of our country, and, indeed, to the whole world.

The dispatch also says that every Catholic in the country, man, woman, and child, is called upon not only to hear and heed the message of their spiritual leaders...

It is a call which must be heeded, and which already has initiated a nation-wide movement to carry out the desire of the Hierarchy...

Join this movement. Rally to the standard of justice and charity—above the darkness and confusion of our times by our beloved and trustworthy shepherds.

minor differences, and should unite as children of Almighty God in this supreme act of Faith, Hope and Charity...

The fact that the letter will be read, as it happens, on the anniversary of the birthday of the founder of our Republic...

Which Is It To Be?

It is plain there is a sharply defined difference between the New York State Railway management and the Rochester Administration...

The street car management, in common with other similar corporations, all over the country, cite the increased cost of material and wages...

It seems to us that the street car management overlooks one important fact. While the private corporation has to lay out large sums for property upon which to build its larger plant...

And so it would seem that if the 99 year lease of the city's streets to the street car company must stand, the five cent fare agreement in the aforesaid lease also must stand.

What the people of Rochester are concerned in is decent street car service over their streets. They are not concerned about the dividends to holders of traction stocks.

not so sure that they could not operate the street cars themselves and turn the dividends into the city treasury.

Superior Quality Reasonable Prices

If Not We Make It Right. 61 STATE ST.

when growing plants mean most to the home

Now, when the days mostly are dull and murky, when the evenings are long, when so much of our time is spent indoors working and reading.

These are the conditions which invite the cheerful presence of growing plants; when bright, living nature is the best antidote.
