AN OLD-TIME PRIEST

Who Left a Good Work for Humanity—A Sturdy Career

In the mountain districts of Virginia and West Virginia, where a priest's parish was a rough country often more than sixty miles long, and where he acted as nurse to the sick, law giver to the lawless, and spiritual guide to the well-nigh hopeless, Father John O'Brien performed a labor that only a robust courage and faith could carry through.

In the smoother path that he found in St. Patrick's parish, Lowell, Mass., where he labored as pastor in the later years of his life, he had many opportunities for spreading his practical Christianity, and it was in Lowell that the medicine which bears his name became so well known.

It was because of his desire to benefit the sick and run down people under his care that he was led to give out the remedy—Father John's Medicine—after he had proved its worth in his own case, it curing him of a severe nervous breakdown and cough, building him up to his old strength.

During the more than sixty years it has been in use, Father John's Medicine has become one of the largest selling preparations in this country, and forms an important part in every reputable druggist's business today. It is a safe, pure medicine, which mothers can give to their children with perfect confidence, as well as use it for all members of the family for throat troubles and all run down conditions.
