The Eden Electric Washer and Wringer Machine Eliminates the Strain on Wash Day.

Why? Because such machines banish the soul-trying, nerve-racking physical labor common to wash day in homes where the washing, rinsing and wringing are done by hand.

With an "Eden" your laundress can do the washing in one-third of the time and the clothing will not only be washed better, but it will last longer.

Between two and three cents' worth of electricity will do the washing for an average family.

Our own faith in the Eden Electric Washer is such that we will gladly send them out on trial. We will also send an operator to assist with the first washing if desired.
