states in the history of this country. It was made such in the ancient fight in congress over the slavery question, which took up the admission of free and slave states and considered the balance thereof in congress. Missonri was also a pivotal state in yet another and larger sense—she was the iumping-off place for that wild and unknown country called the Wild West -the land west of the Missouri river. She made the midway point between the frontiersmen of Kentucky and those of the great plains, occupying a generation of history herself as frontier commonwealth.

Jason a Legendary Character. Jason was the leader of the Argonautic expedition in Greek legend. The equivalent of his name in Greek is the healer or atoner. Jason was tutored and brought up under Chiron, a Greek myth renowned for his wisdom and skill in medicine, hunting, music and prophecy. Jason's greatest exploit was his expedition with the Argonauts in quest of the Golden Fleece. Jason secured this by the aid of Medea, a sorceress who fell in love with him. She protected him from the built breathing fire and hoofed with brase tain the fleece, to yoke to the plaw. dragon's teeth which he was required to sow in the fields. Medea fled with Jason and the fleece and married him. Ten years later Jason abandoned her after she had murdered Creusa, whom Jason had determined to marry.

Lesson in Dietetics.

What bread needs to make it a perfect food—a perfect food is that which contains protein, carbohydrates, and fat in certain definite proportions—is something with fat in it. Hence bread "and butter," and bread "and dripping," and bread "and cheese." Pork and beans pair quite properly, because the beans supply the absent protein. When you eat beef and potatoes, or roast beef and Yorkshire pudding, the pairing makes a perfect food. The pairing of condiments is not a matter of taste alone. Cabbage is peppered because it was discovered that pepper discounted the excessive action of greenstuff on the bowels. Mustard goes with beef, but not with mutton, because mutton is much more easily digested than beef, and mustard is a first-class digester.-Montreal Hera'd.
