Mother's Cook Book

"There are sweet surprises awaiting many a humble soul fighting against great odds in the battle of seemingly commonplace life."

What to Do With Bits of Leftovers.  
Most housewives have dozens of ways of re-cooking or serving leftover meats, but too many throw away leftover vegetables or serve them again warmed up in the same sauce.

A spoonful of cooked beans washed from the sauce in which they were served added to a potato salad will make that quite another dish; the same is true of peas, corn or other vegetables.

Corn Muffins.  
Beat together one cupful of stewed corn drained dry; two egg yolks, one-quarter teaspoonful of salt, a teaspoonful of melted butter; add one cupful of milk, one and one-half cupfuls of flour sifted with a teaspoonful of baking powder.

Butterfly Dress for Child  
Attractive garment for little miss displayed at the co-operative fashion exhibition in New York City.

SIMPLE FROCKS ARE COSTLY

Dainty Frocks of Yesteryear Under Present Conditions Are Real Luxuries.

It is a long time since the couturiers of Paris paid so much attention to real summer frocks as they have during the present season, according to a Paris letter in Age. Women who know that they look well in these sheer affairs pray for a chance to appear in this most captivating of all feminine apparel.

Frocks of this type used to offer an agreeable opportunity for economy, for in the old days the price of cotton fabrics was low and strangely out of all proportion to their charm.

Now the difference in a model made of organdie instead of taffeta is too inconceivable to be worth noticing. Long past are those happy times when a clever lady's maid could run up a little lingerie frock which, with the addition of the proper accessories, would give her mistress a delightful change of costume at only a nominal cost.

NATIONWIDE FIGHT AGAINST DISEASE

American Red Cross Will Have Health Centers in All Parts of United States.

The American Red Cross has launched upon a nation wide campaign of fighting disease and physical defects among the American people. A new and unique health institution has come into being as the result of several months' study by the Red Cross Health Service Department at National Headquarters.

Official in charge of the department predict that before long this new health activity will be in actual operation all over the country, and that the sign—"American Red Cross Health Center"—will become as familiar to the people everywhere as are now the signs of the telegraph companies.

How Organization Works.  
The Red Cross Health Center is governed by business principles, applies business methods, and, in its more simple form, can be established and conducted by lay people.

Teaching Disease Prevention.  
The Red Cross Health Center is, however, of even greater service to the well. It teaches people how to prevent sickness and disease. This is done in many interesting and attractive ways—first of all, by the distribution of popular health literature and through health lectures illustrated with lantern slides or with health motion picture films.

FRENCH PRAISE FOR OUR RED CROSS WORK  
Lauding the work accomplished by American philanthropy for war-stricken France, Andre Tardieu, former high commissioner, from that nation to the United States, in a recent article widely commented on throughout the French press, says:

FASHIONS IN BRIEF  
The Shantung suit is popular for hot weather months.  
No day frock emphasizes youth more than an organdie.  
Laces are increasing in favor, especially for trousseaux.

DAHLIAS AND ASTERS  
"It was getting to be very cold weather, but the Dahlias and Asters growing in the garden by the high stone wall did not seem to mind it."  
The leaves had fallen from the trees the night before, and as they rustled past they called to the flowers: "You better go to sleep. Dick Frost says us a terrible fright last night in his white coat."

SCHOOL DAYS  
"Sick 'em, Don't! Sick 'em in the school! Sick 'em in the school!"  
"What's matter for? Why don't you go ahead with the fight?"  
At sporting events.

Every Type of Vehicle For Baby Is Here  
There are fine carriages and perfect sleepers of the latest types with all the most hygienic facilities. There are also innumerable models of pushchairs, folding go-carts and park strollers.
